Transforming the Curriculum Through the Arts Robyn Gibson, Robyn

Ewing,2020-12-14 This textbook highlights the unique role that quality Arts processes and experiences can and should play across the curriculum to ensure that all learners' creativities and imaginations flourish. It provides much needed strategies, units of work and practical resources in six arts disciplines: visual arts, literature, drama, music, dance, and media arts. It is a must read for those keen to develop research informed, integrated arts rich learning and teaching strategies while also exploring each discipline. Alongside the four Cs (critical thinking, communication, collaboration, and creativity) the authors propose four additional Cs (curiosity, compassion, connection, and courage) as much needed 21st century capabilities. The book speaks to the current debates on STEAM vs STEM education and provides an important framework for preservice and experienced classroom teachers including arts specialists.

Art Teaching George Szekely, Julie Alsip Bucknam, 2013-06-17 This comprehensive up to date art methods text presents fundamental theories, principles, creative approaches and resources for art teaching in elementary through middle school.

Teaching the Arts in the Primary Curriculum Susan Ogier, Suzy Tutchell, 2021-05-12 Learning in the arts does not fit in with simple conventional methodologies for teaching and assessing in the traditional sense but it has an immense power to transform children's understanding of the world around them and their lives. Many jobs currently and of the future will demand the skills that learning in the arts will develop. This book brings Arts Education sharply into focus as a meaningful learning experience for children of pre school and primary age (3-11 years). It reinforces the potential for the wide range of physical, mental and emotional development through learning opportunities that engagement in arts practice facilitates. Provides insight into how teachers can support children to consider contemporary challenges that face their generation. Includes expert voices from the world of education to demonstrate an expansive and perhaps surprising view of where and how the Arts can be found. Shows how we can bring the arts so easily into our curriculum and into our classrooms.
