The Ethical Function of Architecture

The Ethical Function Of Architecture

Arnold Berleant

The Ethical Function Of Architecture:

The Ethical Function of Architecture Karsten Harries, 1998-07-31 Can architecture help us find our place and way in today's complex world? Can it return individuals to a whole, to a world, to a community? Developing Giedion's claim that contemporary architecture's main task is to interpret a way of life valid for our time, philosopher Karsten Harries answers that architecture should serve a common ethos. But if architecture is to meet that task, it first has to free itself from the dominant formalist approach and get beyond the notion that its purpose is to produce endless variations of the decorated shed. In a series of cogent and balanced arguments, Harries questions the premises on which architects and theorists have long relied, premises which have contributed to architecture's current identity crisis and marginalization. He first criticizes the aesthetic approach focusing on the problems of decoration and ornament. He then turns to the language of architecture. If the main task of architecture is indeed interpretation, in just what sense can it be said to speak, and what should it be speaking about? Expanding upon suggestions made by Martin Heidegger, Harries also considers the relationship of building to the idea and meaning of dwelling. Architecture, Harries observes, has a responsibility to community, but its ethical function is inevitably also political. He concludes by examining these seemingly paradoxical functions.

The Ethical Function of Architecture Karsten Harries, 2000

The Ethical Function of Architecture Karsten Harries, 1997 *Architecture and Civilization*, 2022-05-20

Heidegger in America Martin Woessner, 2010-12-20 Heidegger in America explores the surprising legacy of his life and thought in the United States of America. As a critic of modern life, Heidegger often lamented the growing global influence of all things American. However, it was precisely in America where his thought inspired the work of generations of thinkers, not only philosophers but also theologians, architects, novelists, and even pundits. As a result, the reception and dissemination of Heidegger's philosophical writings transformed the intellectual and cultural history of the United States at a time when American influence was itself transforming the world. A case study in the complex and sometimes contradictory process of transnational exchange, Heidegger in America recasts the scope and methods of contemporary intellectual and cultural history in the age of globalization, challenging what we think we know about Heidegger and American ideas simultaneously.

The Tender Detail Daniel E. Snyder, 2020-06-25 The Tender Detail tells a story about the repression of sentimentality through architectural ornament. The protagonists are Louis H. Sullivan and Frank Lloyd Wright, two of the most important architects and designers of ornament in American history. Interweaving close readings of their architecture and writings with wide-ranging discussions about sexuality, gender, and philosophy, the book explores how both men worked to solve the problem of late nineteenth-century ornamentation. It suggests that their solutions, while widely different, were both intimately rooted in the tender emotions of sentimentality. Viewing ornament in this way reveals much, not only about Sullivan and Wright's artistic intentions but also about the role of affect, the value of beauty, and the agency and ontology of objects. Illuminated by personal stories from their respective autobiographies, which add a level of

human interest unusual in an academic work The Tender Detail is a readable scholarly study which sheds fresh light on Sullivan and Wright s relationship their work and on the nature of ornament itself **Architecture's Appeal** Marc J. Neveu, Negin Djavaheerian, 2015-02-11 This collection of previously unpublished essays from a diverse range of well known scholars and architects builds on the architectural tradition of phenomenological hermeneutics as developed by Dalibor Veselý and Joseph Rykwert and carried on by David Leatherbarrow Peter Carl and Alberto Pérez Gómez Taking an interdisciplinary approach and drawing on ideas from beyond the architectural canon contributors including Kenneth Frampton David Leatherbarrow Juhani Pallasmaa Karsten Harries Steven Holl Indra Kagis McEwen Paul Emmons and Louise Pelletier offer new insights and perspectives on questions such as the following Given the recent fascination with all things digital and novel what is the role of history and theory in contemporary architectural praxis Is authentic meaning possible in a technological environment that is so global and interconnected What is the nature and role of the architect in our shared modern world How can these questions inform a new model of architectural praxis **Architecture's Appeal** is a thought provoking book which will inspire further scholarly inquiry and act as a basis for discussion in the wider field as well as graduate seminars in architectural theory and history **Proceedings of the ACSA Annual Meeting** Association of Collegiate Schools of Architecture, 1999 Leading Architecture & Design , 2003 **The Ethics of Architecture** Mark Kingwell, 2021 The Ethics of Architecture offers a short and approachable scholarly introduction to a timely question in a world of increasing population density how does one construct habitable spaces that promote social goals such as health happiness environmental friendliness and justice A preface offers specific discussion of architecture during and after the COVID 19 pandemic **Constructing Identity, "souped-up" and "unplugged"** , 1998 The Philosophy of Louis I. Kahn and the Ethical Function of Architecture Jeffrey Kiat Ho, 1997 The Kenyon Review John Crowe Ransom, 2009 Editor winter 1939 autumn 1941 J C Ransom *The Architecture of Humanism* Geoffrey Scott, 1914 **World Architecture** , 1997 **The Function of Christian Ethics** Arthur Erastus Holt, 1904 *Ethics and Architecture* Tom Elliott Spector, 2000 **Environment and the Arts** Arnold Berleant, 2002 The environment raises basic questions about many of the fundamental concepts and doctrines in aesthetics and the arts Including new work by the leading international contributors to environmental aesthetics this is the first book to deal with the relations between the arts and environment directed towards a non philosophical audience of practitioners and critics as well as theorists Introducing many of the basic ideas and issues in the theory of the arts particularly as they bear on environment this book addresses the special concerns of an aesthetics of environment and explores the implications of environmental aesthetics for understanding both aesthetic theory and the aesthetic of individual arts Key topics covered include the mutual relevance of art and environment appreciation in art and nature appraising nature architecture and the urban environment the relationships between environmental ethics and aesthetics the environmental implications of some specific arts environment and popular culture and the significance of

environment technologies for aesthetics and the arts Contributors are drawn from a range of nationalities and cultures that have signal importance for environmental aesthetics including Great Britain the United States Finland and Japan Environment and the Arts provides an introduction to some of the most intriguing and compelling questions about understanding and appreciating the arts and environment setting a mark for the field and opening the topics to a wider audience *RIBA Journal*, 2009 **Current Contents** Institute for Scientific Information (Philadelphia), 1997
