**River Town** Peter Hessler,2010-09-21 A New York Times Notable book this memoir by a journalist who lived in a small city in China is a vivid and touching tribute to a place and its people Kirkus Reviews starred review In the heart of China s Sichuan province amid the terraced hills of the Yangtze River valley lies the remote town of Fuling Like many other small cities in this ever evolving country Fuling is heading down a new path of change

and growth which came into remarkably sharp focus when Peter Hessler arrived as a Peace Corps volunteer marking the first time in more than half a century that the city had an American resident Hessler taught English and American literature at the local college but it was his students who taught him about the complex processes of understanding that take place when one is immersed in a radically different society Poignant thoughtful funny and enormously compelling River Town is an unforgettable portrait of a city that is seeking to understand both what it was and what it someday will be This touching memoir of an American dropped into the center of China transcends the boundaries of the travel genre and will appeal to anyone wanting to learn more about the heart and soul of the Chinese people Highly recommended Library Journal This is a colorful memoir from a Peace Corps volunteer who came away with more understanding of the Chinese than any foreign traveler has a right to expect Booklist [Yangtze River](#) Cari Meister,2010-09-01 Surveys the origin geological borders water plant and animal life and economic and ecological aspects of the Yangtze River **Witness to Extinction** Samuel Turvey,2009-08-13 The tragic recognition of the extinction of the Yangtze River Dolphin or baiji in 2007 became a major news story and sent shockwaves around the world It made a romantic story for the baiji was a unique and beautiful creature that features in many Chinese legends and folk tales The Goddess of the Yangtze as it was known was also the lone representative of an entire and ancient branch of the Tree of Life But perhaps the greater tragedy is that its status as one of the world's most threatened mammals had been widely recognized yet despite wide publicity virtually no international funds became available A compelling read by a young naturalist Samuel Turvey tells the story of the plight of the Yangtze River Dolphin from his unique perspective as a conservation biologist deeply involved in the struggle to save the dolphin This is both a celebration of a beautiful and remarkable animal that once graced one of China's greatest rivers its natural history and its role as a cultural symbol and also a personal eyewitness account of the failures of policy and the struggle to get funds that led to its tragic demise It is a true cautionary tale that we must learn from for there are countless other threatened species that will suffer from the same human mistakes and whose loss we shall not know until it is too late **A review of the inland fisheries of the People's Republic of China and the strengthening of capacity in the collection and analysis of inland fisheries statistics** Food and Agriculture Organization of the United Nations,2024-01-03 China's surface waters cover 20.6 million ha The aquatic living resources in these waters not only sustain wild natural fishery production but also support fish production based on stock enhancement and aquaculture Most inland capture fisheries are concentrated in the major rivers and lakes whereas reservoirs are dominated by enhanced fisheries In 2020 the national freshwater fishing output was 1.46 million tonnes which was a decrease of 20.84 percent from the previous year Since 2005 the output value of freshwater capture fishing and aquatic products in China has exceeded CNY 20 billion reaching a peak of CNY 46.577 billion in 2018 With increasing economic development the role of inland capture fisheries in the social economy has changed Since the 1990s there has been a gradual increase in aquaculture and since 2010 a gradual decrease in inland capture fishery

production With the issuance of various fishing ban policies and the strengthening of enforcement actions especially the implementation of the 10 year fishing ban on the Yangtze River and the fishing ban on major lakes inland capture fisheries production has dropped sharply since 2016 and this development is expected to continue due to the increased awareness of the need for ecological protection in large waterbodies the implementation of the fishing ban policy and the strengthening of law enforcement However even though aquaculture production has massively increased and provides the bulk of freshwater fish supply high quality aquatic products from natural waters are still highly sought after by consumers River Culture UNESCO, UNESCO Office in Beijing, 2023-01-05 **Yangtze! Yangtze!** Qing Dai, 1994-01-01 This is a collection of analyses essays and interviews with prominent Chinese intellectuals experts and politicians who are opposed to the massive and environmentally questionable project to dam the Yangtze River The largest hydroelectric project of its kind it will generate 17 500 MW of electricity displace over 1 million people create a lake over 450 miles long and probably silt up in a few years The book was first distributed in early 1989 but was promptly suppressed after Tiananmen Square and the author put under house arrest This is the first time it has been available in translation outside China 杨庆堃 著 袁筱一 译, 2009
