Their Common Sense:

Common Sense and Legal Judgment Patricia Cochran,2017-11-27 An analysis of the surprisingly inscrutable idea of common sense and its relationship to reflective and accountable legal judgment

Common Sense in Early 18th-Century British Literature and Culture Christoph Henke,2014-10-14 While the popular talk of English common sense in the eighteenth century might seem a by product of familiar Enlightenment discourses of rationalism and empiricism this book argues that terms such as common sense or good sense are not simply synonyms of applied reason On the contrary the discourse of common sense is shaped by a defensive impulse against the totalizing intellectual regimes of the Enlightenment and the cultural climate of change they promote in order to contain the unbounded discursive proliferation of modern learning Hence common sense discourse has a vital regulatory function in cultural negotiations of political and intellectual change in eighteenth century Britain against the backdrop of patriotic national self concepts This study discusses early eighteenth century common sense in four broad complexes as to its discursive functions that are ethical which at that time implies aesthetic as well transgressive as a corrective political in patriotic constructs of the nation and repressive of otherness The selection of texts in this study strikes a balance between dominant literary culture Swift Pope Defoe Fielding Johnson and the periphery such as pamphlets and magazine essays satiric poems and patriotic songs

 across the humanities The Atheneum ,1828 **The Language of Thought in Late Medieval Philosophy** Jenny
 Pelletier, Magali Roques, 2018-01-02 This edited volume presents new lines of research dealing with the language of thought
 and its philosophical implications in the time of Ockham It features more than 20 essays that also serve as a tribute to the
 ground breaking work of a leading expert in late medieval philosophy Claude Panaccio Coverage addresses topics in the
 philosophy of mind and cognition externalism mental causation resemblance habits sensory awareness the psychology
 illusion representationalism concepts universal transcendental identity syncategorematic logic and language definitions
 syllogisms modality supposition obligationes etc action theory belief will action and more A distinctive feature of this work is
 that it brings together contributions in both French and English the two major research languages today on the main theme
 in question It unites the most renowned specialists in the field as well as many of Claude Panaccio s former students who
 have engaged with his work over the years In furthering this dialogue the essays render key topics in fourteenth century
 thought accessible to the contemporary philosophical community without being anachronistic or insensitive to the
 particularities of the medieval context As a result this book will appeal to a general population of philosophers and historians
