Windrush Affairs:

The Windrush Affairs Maxine Barry, 2002 *African Migration, Human Rights and Literature* Fareda

Banda, 2020-12-24 This innovative book looks at the topic of migration through the prism of law and literature. The author uses a rich mix of novels, short stories, literary realism, human rights, and comparative literature to explore the experiences of African migrants and asylum seekers. The book is divided into two parts. Part one is conceptual and focuses on art, activism, and the myriad ways in which people have sought to write justice. Using Mazrui's diasporas of slavery and colonialism, it then considers histories of migration across the centuries before honing in on the recent anti-migration policies of western states. Achiume is used to show how these histories of imposition and exploitation create a bond which bestows on Africans a status as co-sovereigns of the First World through citizenship. The many fictional examples of the schemes used to gain entry are set against the formal legal processes. Attention is paid to life post-arrival, which for asylum seekers may include periods in detention. The impact of the increased hostility of receiving states is examined in light of their human rights obligations. Consideration is paid to how Africans navigate their post-migration lives, which includes reconciling themselves to status fracture, taking on jobs for which they are over-qualified while simultaneously dealing with the resentment borne of status threat on the part of the citizenry. Part two moves from the general to consider the intersections of gender and status, focusing on women, LGBTI individuals, and children. Focusing on their human rights and the fictional literature, chapter four looks at women who have been trafficked, as well as domestic workers and hotel maids, while chapter five is on LGBTI people whose legal and literary stories are only now being told. The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors. Using a mixture of poetry and first-person accounts, the chapter examines the post-arrival lives of children, some of whom may be citizens but who are continually made to feel like outsiders. The conclusion follows, starting with two stories about walls by Hadero and Lanchester, which are used to illustrate the themes discussed in the book. Few African lawyers write about literature, and few books and articles in Western law and literature look at books by or about Africans, so a book that engages with both is long overdue. This book provides fascinating reading for academics, students of law, literature, gender, and migration studies, and indeed the general public.

Barry, 2001-04-01 **Racism and the Tory Party** Mike Cole, 2022-12-30 Racism is an endemic feature of the Tory Party. Tracing the history of that racism, *Racism and the Tory Party* investigates the changing forms of racism in the party from the days of Empire, including the championing of imperialism at the turn of the 20th century and the ramping up of antisemitism, the imperial and racial politics of Winston Churchill, the rise of Enoch Powell and Powellism to the Margaret Thatcher years, the birth of racecraft and her policies in Northern Ireland, and the hostile environment and its consolidation and expansion under Theresa May and Boris Johnson's premierships. Throughout the book, all forms of racism are addressed, including the various forms of colour-coded and as well as non-colour-coded racism, as they are put in their historical and economic

contexts This book should be of relevance to all interested in British politics and British history as well as undergraduate and postgraduate students studying the sociology and politics of racism as well as for students of the history of the development of British racism and of imperialism and its aftermath

The Windrush Scandal Charles River,2020-11-23 Includes pictures Includes a bibliography for further reading Migration was not a word I would have used to describe what I was doing when I sailed with other West Indians to England in 1950 We simply thought we were going to an England that had been painted in our childhood consciousness as a heritage and a place of welcome It is the measure of our innocence that neither the claim of heritage nor the expectation of welcome would have been seriously doubted England was not for us a country with classes and conflicts of interest like the islands we left It was the name of a responsibility whose origin may have coincided with the beginning of time George Lamming In the Castle of My Skin On the morning of June 22 1948 the HMT Empire Windrush a repurposed German troopship drew up alongside the Tilbury docks lowering its gangplanks onto the wide cobbled quays To the casual interest of the dockworkers a small army of well dressed luggage laden blacks stepped onto the shores of England looking around for the first time at their new home Most originated from Kingston the capital of the British island colony of Jamaica with a few others from Trinidad and a handful of other British Caribbean dependencies These were the men and women who led the vanguard of what would come to be known as the Windrush Generation the first substantial wave of non white

immigration to the British Isles from the outer marches of the Empire Ultimately between 1948 and 1970 more than half a million souls would migrate to the United Kingdom from the Caribbean and other non white Commonwealth countries establishing the bedrock of the British black community and prompting the first ripples of racial discomfort that would conclude in the infamous Windrush Scandal of 2018 The issue of race in the British Empire is as complex as the history of the British Empire itself The origins of the British Empire lie in the settlement of North America and the Caribbean both of which led to complex intersections of imperialism commerce and race While the first European encounters with the New World were Spanish the British arrived on the scene in a permanent way with the establishment of a General Assembly of the Leeward Islands in 1674 after which in a complex evolution in competition and conflict with other European trading powers the British West Indies finally comprised the British Leeward Islands the British Windward Islands Jamaica and other colonies such as the Cayman Islands British Honduras and the Turks and Caicos Islands The Caribbean was colonized for reasons both economic and strategic the former being the seedbed of the institution that would define the demographics of the region up to the present and impact race relations back in Britain as well The Windrush Scandal The History of the Modern Controversy and Race Relations in the British Empire examines how racism in the United Kingdom affected the empire at home and abroad Along with pictures of important people and places you will learn about the Windrush Scandal like never before
