High-Performing Self-Managed Work Teams Dale E. Yeatts, Cloyd Hyten, 1998 Since the mid 1970s pressure from international competition has forced business in the United States to look for better ways to achieve and maintain a competitive position One popular tool is the self managed work team SMWT This book provides a thorough examination of SMWT both at the level of theory and at the practical level of when to use work teams to find solutions and how to develop successful teams By examining the most widely accepted theories of work team performance illustrated by 10 case studies from the areas of manufacturing public service and health care the authors define how high performing self managed work teams differ from work groups and short term teams the problems which compel an organization

Building Effective Social Work Teams Judy Foster, 2016-11-14 For decades social work policy has been geared around checklists maximizing throughput of cases and responding to scandals In this ground breaking work Judy Foster makes the case that such biases promote neither efficiency nor client satisfaction Instead she urges a complete overhaul based on five principles policy coherence organisational support autonomy professional development and finding space to think The ideas she puts forward can be taken up by all social workers and those in social care from their second year of qualifying training to policy makers and leaders in the field

Working in Groups Ernest Stech, Sharon A. Ratliffe, 1976

Work Teams: Past, Present and Future M.M. Beyerlein, 2013-06-29 This book places current and future work team practices in historical context Researchers from 10 countries have contributed chapters that represent developments specific to their regions and that illustrate the way ideas spread around the world Some principles of effective teaming were independently discovered in different countries and some principles emerged from the work of researchers like Trist Emery and Lewin and spread around the world But all of the practices were driven by the dynamic tension between the psychology of the employee and business necessities Theories and cases describe autonomous work groups self managed work teams cell teams and other collaborative work structures Contributions to the design of such structures came from psychology management sociology industrial engineering and manufacturing Because of the challenges inherent in reorganising work around teams instead of individuals organizations are at different stages in evolving into 21st century work systems
