World Ahead:

The World Ahead Margaret Mead, 2005 Born in the first year of the 20th century it is fitting that Margaret Mead should have been one of the first anthropologists to use anthropological analysis to study the future course of human civilization This volume collects for the first time her writings on the future of humanity and how humans can shape that future through purposeful action For Mead the study of the future was born out of her lifelong interest in processes of change Many of these papers were originally published as conference proceedings or in limited circulation journals testimony before government bodies and chapters in works edited by others They show Mead s wisdom prescience and concern for the future of humanity
