From "Chapter 26: Frank Moore's 'Naming the World Before Us'"

It is a very common error to suppose that the world was a perfect and finished work of art, and that the human mind was a perfect and finished work of art. In fact, the world is a work in progress, and the human mind is a work in progress.

The World Before Them Volume 1 Susanna Moodie, 2020-08-15
Reproduction of the original *The World Before Them Volume 1* by Susanna Moodie
The World Before Her Deborah Weisgall, 2008
A stunning novel about two women and two marriages George Eliot at the end of her life and another woman a century later
The year is 1880 and the setting is Venice Marian Evans whose novels under the pen name George Eliot have placed her among the famed Englishwomen of her time has come to this enchanted city on her honeymoon Newly married to John Cross twenty years her junior she hopes to put her guilt to rest Marian lived unmarried with George Henry Lewes for twenty five years until his death She took a tremendous risk and paid a high price for that illicit union but she also achieved happiness and created art Now she wants to love again In this new marriage in this romantic place can this writer give herself the happy ending that she provided for *Middlemarch* s Dorothea Brooke
The parallel story of a sculptor named Caroline Spingold brings us to Venice one hundred years later in 1980 Caroline s powerful wealthy older husband has brought her to the city against her will to celebrate their tenth wedding anniversary Having spent a perfect childhood summer in Venice with her parents before her father left her mother Caroline had vowed never to return
In alternating chapters linked by the themes of art love and marriage *The World Before Her* tells of these two women and their surprising similarities In a city where the canals reflect memory as much as light they both confront desire and each assesses what she has and who she is
At the heart of this sumptuously and evocatively written novel lies the eternal dilemma of how to find love and sustain it without losing one s self
The World Before Them: A Novel (Complete) Susanna Moodie, 1867-01-01
But Dolly father will never give his consent you know that said a male voice behind the hawthorn hedge that skirted the deep sandy lane that led to Heath Farm
The tone reproachful and irritating in which this was spoken was answered in a sweet calm voice Until he gives his consent his frank free consent Gilbert I cannot and will not be your wife You are just as obstinate as the old man Ay and as proud But don t think for a moment Gilbert that I blame your father Were I in his place I might think just as he thinks If he has higher views for his son than a marriage with a nameless girl like me his son should be the last to find fault Don t let love blind you to facts Look them boldly in the face as I do I cannot forget what I am and what I owe to your father
The happy life I have led here from a child made me forgetful of the great debt until and here the calm voice faltered the reproaches of last night brought it all fresh to my mind and I saw how ungrateful I had been to my benefactor in giving the least encouragement to you Yes I shall not soon forget the cruel insult he put upon you It was mean and cowardly to say the least of it He might be proud to call you his daughter and his daughter you shall be in spite of him
There are two words to that bargain and that voice now spoke sternly and decidedly two voices that speak in my heart the voice of love pleading for you the voice of conscience demanding of me to act rightly Which shall I obey No answer was given to this appeal
The speakers came forward to the stile the young farmer with the fork over his shoulder with which he had been making hay his companion a girl of seventeen with the rake in her hand her broad coarse

straw hat dangling from her arm her raven ringlets thrown back from her fine sun burnt face which glowed with healthy exercise The lovers had been working together through the long June day This was the first time that either had spoken upon a subject that was uppermost in their thoughts which had lain like a heavy weight upon their hearts and rendered them unusually reserved to each other They had worked in silence and apart expecting the explanation which they knew must come which both wished yet each secretly dreaded and put off until the last moment as if by mutual consent The hay was all cocked they could no longer linger in the field and as they strolled homeward Gilbert had broken the ice and spoken in such an abrupt and decided manner that it had aroused in his companion a spirit of resistance and confirmed her in the course which after long and painful consideration she had determined to adopt not to accept the hand of her lover against the wishes of his father The young people leant for a few minutes on the stile beneath the shade of a large ash tree the only tree of any magnitude in the heathy lane before them They would have made a good study for an artist had an artist been at hand to sketch them and their surroundings The sun had sunk behind the common fronting them which formed a steep ridge against the horizon and seemed to separate them from the rest of the world The road led to an old fashioned high gabled farm house at the foot of the hill the only tenement visible from that lonely spot
