see techniques in practice Positive Psychology Aleksandra Kostic, Derek Chadee, 2021-04-27 POSITIVE PSYCHOLOGY Bringing together today's most prominent positive psychology researchers to discuss current themes and issues in the field Positive psychology is the scientific study of the strengths rather than the weaknesses in human thoughts, feelings, and behaviors. For much of its history, psychology has focused on the negative, completely overlooking the positive attributes that allow individuals and communities to thrive. Positive Psychology is a collection of essays that together constitute a much needed theoretical rationale and critical assessment of the field. This book reassesses what we already know and provides directions for the future. Contributors are leading international authors including Mihaly Csikszentmihalyi, Robert Sternberg, Vittorio Caprara, Daniel Batson, and Ilona Boniwell, among others. These luminaries write in a way that is rigorous enough for academic use but accessible to professionals, policymakers, and lay audiences as well. The content of Positive Psychology includes both theoretical and applied contributions focusing on a range of areas including altruism, positive creativity, science of well-being, forgiveness, coaching for leadership, cyberpsychology, intelligence, responding to catastrophes like COVID-19, time perspective, physiological and epigenetic youth, civic engagement, ups and downs of love, flow, and good life, global perspectives on positive psychology, self and collective efficacy, positive psychology interventions, and positive orientation. The book is pitched to senior undergraduates, graduates, academics, and researchers and provides insights and perspectives into neglected and unresolved questions. Brings together the latest viewpoints and research findings on positive psychology from the leading thinkers in the field. Offers both theoretical and applied insights for a well-rounded reference on this new and fast-growing field. Contains contributions from well-known authors like Mihaly Csikszentmihalyi, Robert Sternberg, and Vittorio Caprara. Appeals to academic, professional, and lay audiences with an interest in acquiring a profound knowledge of positive psychology. No other book currently on the market addresses such a breadth of issues in positive psychology. Positive Psychology represents a significant theoretical boost to this exciting field.
