Talent For War:

A Talent For War Jack McDevitt, 2004-06-29 The acclaimed classic novel and fan favorite the far future story of one man's quest to discover the truth behind a galactic war hero Dressed for War Nina Edwards, 2014-10-27 Men in khaki and grey squatting in the trenches women at work gender bending in goggles and overalls over their trousers a girl at the Paris theatre in pleated beaded silk a bangle on her forearm made from copper fuse wire from the Somme What people wear matters Copiously illustrated this book is the story of what people on both sides wore on the front line and on the home front through the seismic years of World War I Nina Edwards reveals fresh aspects of the war through the prism of the smallest details of personal dress of clothes hair and accessories both in uniform and civilian wear She explores how during a period of extraordinary upheaval and rapid change a particular preference for a type of razor blade or perfume say or the just so adjustment to the tilt of a hat offer insights into the individual experience of men women and children during the course of World War I

Decisions for War, 1914-1917 Richard F. Hamilton, Holger H. Herwig, 2004-12-13 Sample Text *Arming the Nation for War* Robert P. Patterson, Robert Morgenthau, 2026-10-25 A decorated World War I veteran Federal Judge Robert P Patterson knew all too well the needs of soldiers on the battlefield He was thus dismayed by America's lack of military preparedness when a second great war engulfed Europe in 1939-40 With the international crisis worsening Patterson even resumed military training as a forty nine year old private before being named assistant secretary of war in July 1940 That appointment set the stage for Patterson's central role in the country's massive mobilization and supply effort which helped the Allies win World War II In *Arming the Nation for War* a previously unpublished account long buried among the late author's papers and originally marked confidential Patterson describes the vast challenges the United States faced as it had to equip in a desperately short time a fighting force capable of confronting a formidable enemy Brimming with data and detail the book also abounds with deep insights into the myriad problems encountered on the domestic mobilization front including the sometimes divergent interests of wartime planners and industrial leaders along with the logistical difficulties of supplying far flung theaters of war with everything from ships planes and tanks to food and medicine Determined to remind his contemporaries of how narrow the Allied margin of victory was and that the war's lessons not be forgotten Patterson clearly intended the manuscript which he wrote between 1945 and 47 when he was President Truman's secretary of war to contribute to the postwar debates on the future of the military establishment The fact that passage of the National Security Act of 1947 to which Patterson was a key contributor answered many of his concerns may explain why he never published the book during his lifetime A unique document offering an insider's view of a watershed historical moment Patterson's text is complemented by editor Brian Waddell's extensive introduction and notes In addition Robert M Morgenthau former Manhattan district attorney and a protégé of Patterson's for four years prior to the latter's death in a 1952 plane crash offers a heartfelt remembrance of a man the *New York Herald Tribune* called an example of the public spirited citizen *Our Grief*
