roles in this incredible drama the survivors rescuers and casualties be given their due honor and recognition and that the families of those who perished who have a right to know what happened to their loved ones be given an opportunity to learn that truth This book was written for those reasons We are slowly losing a unique breed of people the likes of which we will never see

Forgotten Tragedy Carlton Jackson,1997 More than one thousand American soldiers were killed on 26 November 1943 when the British troopship Rohna was hit by a German guided bomb in the Mediterranean the greatest single loss of American lives at sea in World War II and one of the worst tragedies in maritime history At the time the disaster was kept secret for security purposes but even after the war little information was given out Now Carlton Jackson tells the story in full for the first time To accurately reconstruct this little known tragedy Jackson studied official Allied and German reports and countless documents in archives here and abroad as well as tracking down survivors and the Luftwaffe pilot involved He gives a detailed account of the air attack on the Rohna part of a convoy headed east through the Mediterranean The only ship to take a direct hit the Rohna sank quickly killing 1 149 people Many of those who managed to survive the initial explosion and avoid German strafing attacks succumbed to the sea A lucky few were rescued their lives forever changed by the dramatic chain of events so ably chronicled in this book Jackson's mesmerizing account of the attack and rescue and the survivors recovery makes a decided contribution to World War II literature and to the history of the sea
