Validating Committed Partnerships: a Still More Excellent Way Jim Bowden, 2012-12-21 Although written from a biblical Christian perspective

this book's theme has practical value for everyone. It presents a new relational paradigm supported by love, justice, mutuality, and other spiritual qualities. The author believes scripture teaches that all human beings are created to live in fulfilling relationships, even those who are homosexual. People of faith, family, however, nearly 50% of American citizens and church members do not support legalizing same gender marriage. This historical perspective on marriage reveals marriage has experienced considerable positive change and practice during the past 75 years and needs to be redefined. Until the 20th century, procreation, to be fruitful and multiply, was marriage's major purpose. While procreation remains important, mutuality has become the major emphasis. As written in Genesis 2:18 (NRSV), God sought a partner for the man. In many marriages, partnership has replaced patriarchy, providing an enriching relational experience in family life. The author presents a new relational paradigm which includes both heterosexual and homosexual couples seeking a lifelong committed relationship. Marriage of male and female and the union of same gender couples will share the title, partnership, safeguarded by the same legal standards. For male and female, their title will be a marital partnership; for same gender couples, their title will be a same gender partnership.

Art And The Committed Eye Richard Leppert, 2019-04-05. In *Art and the Committed Eye*, Richard Leppert examines Western European and American art from the fifteenth to the twentieth century. He studies the complex relation between the look of images and the variety of social and cultural uses to which they are put and demonstrates that the meaning of any image is significantly determined by its function, which changes over time. In particular, he emphasizes the ways in which visual culture is called on to mediate social differences defined by gender, class, and race. In *Art and the Committed Eye*, Leppert addresses the nature and task of representation, discussing how meaning accrues to images and what role vision and visibility play in the history of modernity. Here he explains imagery's power to attract our gaze by triggering desire and focuses on the long history of the use of representation to enact a deception, whether in painting or advertising. He explores art's relation to the material world, to the ways in which images mark our various physical and psychic ties to objects. The author analyzes still life paintings whose subject matter is both extraordinarily diverse and deeply paradoxical, from flower bouquets to grotesque formal arrangements of human body parts. Leppert demonstrates that even in innocent still lifes, formal design and technical execution are imbued with cultural conflict and social power is devoted to the representation of the human body as subject to obsessive gazing and as an object of display, spectacle, and transgression. The variety of body representation is enormous, pleased or tortured, gorgeous or monstrous, modest or lascivious, powerful or weak, in the bloom of life or under the anatomist's knife, clothed or naked. But it is the sexual body, Leppert shows, that has provided the West with its richest, most complex, contradictory, conflicted, and paradoxical accounts of human identity in relation to social ideals.

The Moral Wisdom of the Catholic Church Robert Spitzer, 2022-11-01. Jesus said, "The truth will set you free." Father Spitzer lays bare the theological and philosophical roots of Catholic morality and also uses secular statistical studies to demonstrate that these teachings, even from a scientific standpoint, help human beings to flourish. Gathering data from universities, general psychiatry,

medical institutes and general survey organizations such as Pew Research Gallup Research and Harris Poll this book shows that going against foundational Christian doctrines from marriage to the sanctity of unborn life leads to significant increases in depression anxiety substance abuse familial tensions suicidal contemplation The numbers speak for themselves Many people today particularly the young are embarrassed by the Church s moral teaching For them it is only an outdated expression of hatred or disgust Yet nothing could be further from the truth Sin is what degrades man and kills his joy and a moral life is a life of love If we tell the truth about destructive lifestyles we can rescue our loved ones from a life of darkness helping to bring about a shift in our culture With scientific clarity this work provides readers everything they need to know to speak credibly effectively and persuasively about the most controversial moral issues
