The Expendable Spy:

The Expendable Spy Jack Dayton Hunter, 1968-01-01 **The Expendable Spy** Jack Dayton Hunter, 1966 **The Expendable Spy** Maximilian Lerner, 1999-12-01 It is difficult to express what a person feels just being around Dad Clark For me I feel a sense of joy and life that can only come from being in God s presence maybe it is because this precious man lives in His presence and has learned the art of living like few you will ever meet His smile and life are so infectious that you just feel compelled to love and respect him all the while begging to ask How have you lived to be 105 He is to use an old phrase a prince of a man I will always carry in my soul the picture and image of Dad s radiant countenance and I never want to lose it It serves as a reminder to us all that life is about what Christ has done for us and not what life and others have done to us There is no hint of bitterness anger or unforgiveness even though I am sure he has had plenty of justifiable opportunity to be tainted by any or all of them There are not enough adjectives to put in front of this great man s name but there is one thing for sure he is one of God s saints I love you Dad Clark you are a hero Happy 105th birthday **THE DIVINE THREADS** James Loriega, 2019-01-14 In the final chapter to The Art of War Sun Tzu writes There are five classes of spies Local spies Internal spies Turned spies Expendable spies and Surviving spies When these five kinds of spy are all at work none can discover their secret system This system is called The Divine Threads and it is the sovereign s most precious faculty Sun Tzu chose this metaphor to convey how a variety of spies who deceptively appear to be unrelated are in fact connected to the same general or ruler in a manner not easily discernible to the unsuspecting enemy Centuries later this and other teachings of the Chinese Strategist would serve as the basis for Ninjutsu the Way of the Ninja and the deadliest art to have evolved in Feudal Japan **Intelligence Elsewhere** Philip H. J. Davies, Kristian C. Gustafson, 2013-03-12 Spying the world s second oldest profession is hardly limited to the traditional great power countries Intelligence Elsewhere nevertheless is the first scholarly volume to deal exclusively with the comparative study of national intelligence outside of the anglosphere and European mainstream Past studies of intelligence and counterintelligence have tended to focus on countries such as the United States Great Britain and Russia as well as to a lesser extent Canada Australia France and Germany This volume examines the deep historical and cultural origins of intelligence in several countries of critical importance today India China the Arab world and indeed Russia the latter examined from a fresh perspective The authors then delve into modern intelligence practice in countries with organizations significantly different from the mainstream Iran Pakistan Japan Finland Sweden Indonesia Argentina and Ghana With contributions by leading intelligence experts for each country the chapters give the reader important insights into intelligence culture current practice and security sector reform As the world morphs into an increasingly multi polar system it is more important than ever to understand the national intelligence systems of rising powers and regional powers that differ significantly from those of the US its NATO allies and its traditional opponents This fascinating book shines new light into intelligence practices in regions that until now have eluded our understanding A
