The Exploding Universe:

The Exploding Universe Nigel Henbest, 1979 Over 150 illustrations accompany an easy to understand account of the origin and evolution of the universe and new discoveries about the stars galaxies planets black holes pulsars quasars and quarks [The Review of Popular Astronomy](#) ,1929 *The Human Reality* Valentin Matcas,2016-04-20 There is a difference between the material objective world and the actual human reality since the human reality is very vast formed of this physical objective world and much more Since there is a difference between the actual human reality and the current knowledge about the human reality while by altering the knowledge itself about the human reality it remains separated into the consensual human reality and the actual normal objective human reality While if you lack awareness of all these you end up exploited as a human being in a human world Because you cannot study the human reality without comprehending those controlling the knowledge about the human reality and how they do so forcefully consensually or through stereotypes set in place since Aristotle and long before since this is how they end up controlling you and the entire world Furthermore you cannot form an accurate model of the universe if you do not understand yourself if you do not understand exactly your needs driving you to perform this study if you do not understand your mind constituting your means of understanding the universe and if you do not understand Life altogether spanning the universe actively involved in its structure shape behavior and development At the same time understanding the world around is the key to understanding yourself your life and your meaning in life and in the world closing this circle of knowledge Since this is why we consider the most relevant circumstances behind the famous studies of the world we find true ideas and how they influence the understanding of the world throughout time we seek to understand how and why people accept consensual scientific and ideological models of this world and how this influences their life interconnectivity and development while we discover systematically this entire world Furthermore we use this study of the human reality to test all significant knowledge and ideas including human reasoning past civilizations indoctrination Einstein astral planes of existence ideologies Renaissance the Brotherhood ideological control ages of Earth cosmogony social and mind control Giordano Bruno consensual interconnectivity Relativity human origins and development Copernicus the Consensual Matrix the Big Bang Theory dreams ancient wars stereotypes Galileo Galilei conscious reasoning Schrodinger his cat Creationism alternate realities and much more the entire human reality This book studies systematically the human reality focusing on accurate truth while discarding beliefs and errors of reasoning correlating with all relevant knowledge form physics religion spirituality society education history psychology and more If you want to learn more about everything surrounding you and everything that you really are this book is for you **The two tracks! Particle or Wave?** Jan Edvin Andersen,2023-05-31 This book is the second in a brand new revealing series of the new and fully proven 5 dimensional quantum physical universe The big bang physics and philosophy are now completely disproved by the particle accelerator in the absence of alleged particles The universe has now been proven by scientists and

by the particle accelerator down there in Cern This evidence points only in one direction towards a universe consisting only of energetic oscillating fields and a most strange matter and absolutely no form of physical particles This book is a sequel to Rediscovering the Fifth Dimension These two books will explain you the entire new 5 dimensional quantum physical universe consisting only of energetic oscillating fields and a very wondrous substance Together it adds up absolutely everything that we can see discover and detect The very active universal engine room the place where absolutely everything of physical actions unfolds consists of 5 very active dimensions Outside there is what you might call quiet Only the deep mysteries of quantum physics can give you the answer to the remaining dimensions besides All of the active physical actions that only take place in the very active engine room are quantum physical actions It is only these 5 quantum physical dimensions that are actually the active universal engine room and it is only the two outers of these 5 dimensions that are the driving force of the 5 dimensional very active quantum physical universe The two most exciting dimensions in the active engine room are the 5th and the 4th dimensions Therein we find just the right quantum physics and these two books will convince you of that They just need to be read and understood The books will explain to you about the real creation of the universe and will explain to you the real inflation and how it develops The new expansion law will be explained something that drives inflation and expansion in the universe Universal gravity is explained in the first and fundamental book along with how gravity creates and powers this quantum physical universe You will be explained how and what atoms basically are along with the Higgs fields The Higgs fields are very special Because the matter is very special in this quantum physical universe in which there are no forms of 100% physical particles whatsoever A totally particle less universe with only energetic oscillating fields and the matter from all the Higgs fields
