# **THE SOVIET ECONOMY:**

The Soviet Union pursued one of the most ambitious and notorious economic experiments of the 20th century. This course examines the specifics of the Soviet Union's economic creation, management, and dissolution of its economy in order to uncover what it can tell us about post-Soviet Russia and, more generally, what it reveals about economic structures and policies today.

*The Soviet Economy* Alec Nove,1961      **The Soviet Economy** Alec Nove,1961      The Rise and Fall of the Soviet Economy Philip Hanson,2003 Combining skilful economic political and social analysis this text provides a fascinating insight into the decline of the Soviet Union      **Restructuring the Soviet Economy** David A. Dyker,2002-01-31 Restructuring the Soviet Economy examines the Soviet leadership s most urgent question how to revitalize the soviet economy David Dyker argues that the current impasse can only be understood in the context of the failure of 60 years of central planning He analyses both the problems besetting the centrally planned system and those that have paralysed perestroika and assesses whether the most ambitious attempt ever to reform the Soviet economy will succeed      *Russian and Soviet Economic Performance and Structure* Paul R. Gregory,Robert C. Stuart,1998 This study in transition economics covers Russian and Soviet economic performance and looks at the origins of the Soviet economy the administrative command economy and its decline and contemporary Russia      **Alienation and the Soviet Economy** Paul Craig Roberts,1999-02 As timely today as it was when first published this is a valuable interpretation of the former Soviet economy and its collapse      **The Soviet Economy** Constantin A. Krylov,Konstantin Arkad'evich Krylov,1979 USSR Monograph on trends in the soviet economy and economic policy during the period from 1960s to 1970s comments on principles and institutional framework of planned economy and covers national accounting industrial structure agrarian structure research and development labour force wage payment system public finance trade relations with CMEA countries etc Diagrams and references      The Soviet Economic Experiment James R. Millar,1990      The Soviet Economy Nicolas Spulber,1969 Study of economic policy the economic structure and economic administration in the USSR covers economic planning price determination industry agriculture trade labour force national accounting monetary policy budgets socialist economic theory etc and includes a comparison of socialist and capitalist economic structures Bibliography pp 291 to 316      **The Soviet Economy (Routledge Revivals)** Alec Nove,2013-02-01 First published in 1961 The Soviet Economy is a well informed work which seeks to acquaint students with the structure and problems of the economy of the USSR In a balanced and perceptive analysis Alexander Nove describes the organisation of economic life and of the planning system analysing the practical and theoretical problems within the institutional structure of the Soviet system and introducing the student to Soviet economic ideas and concepts The subject is then related to the growth of the Soviet economy and to the extent to which both the institutions and the problems reflect the historical peculiarities of the USSR The author does not try to argue for or against the system or to provide answers but aims to stimulate the reader to enquire further into the more important questions raised by the strengths and weaknesses of the Soviet economy      The Turning Point Nikolaï Petrovich Shmelev,Vladimir Mikhaïlovich Popov,1989 Two leading Soviet economists explain the Soviet economic crises from the perspective of thoroughly informed insiders and the obstacles as well as the potential to perestroika      **The Struggle to Save the Soviet Economy** Chris Miller,2016-10-13 For half a century

the Soviet economy was inefficient but stable In the late 1980s to the surprise of nearly everyone it suddenly collapsed Why did this happen And what role did Soviet leader Mikhail Gorbachev s economic reforms play in the country s dissolution In this groundbreaking study Chris Miller shows that Gorbachev and his allies tried to learn from the great success story of transitions from socialism to capitalism Deng Xiaoping s China Why then were efforts to revitalize Soviet socialism so much less successful than in China Making use of never before studied documents from the Soviet politburo and other archives Miller argues that the difference between the Soviet Union and China and the ultimate cause of the Soviet collapse was not economics but politics The Soviet government was divided by bitter conflict and Gorbachev the ostensible Soviet autocrat was unable to outmaneuver the interest groups that were threatened by his economic reforms Miller s analysis settles long standing debates about the politics and economics of perestroika transforming our understanding of the causes of the Soviet Union s rapid demise
