Three-arched Bridge:

The Three-Arched Bridge Ismail Kadare, 2012-01-31 In the Balkan Peninsula history's long disputed bridge between Asia and Europe the receding Byzantine empire has left behind a patchwork of warring peoples who fight over everything from their pastures of sheep to the authorship of their countless legends One such gruesome tale declares that a castle under construction cannot be finished until a young mason's bride has been walled up alive one breast left exposed to suckle her growing infant even after her death Myth becomes perverse reality when a mason is plastered into a bridge over a strategically important river where his will not be the last human sacrifice The Three-Arched Bridge Ismail Kadare, 2011 A bridge under construction in 14th Century Albania is secretly sabotaged by ferry men who are afraid of being made redundant Officially they blame a prophecy that no bridge will stand over the river without human sacrifice to the water spirits So the builders immure a villager and the bridge gets built A Balkan parable by the author of *The Pyramid*
