Through Crisis To Freedom:

Through Crisis to Freedom Bill Cane,1980 Constructing America's Freedom Agenda for the Middle East Oz Hassan,2013 This book explores how George W Bush s Freedom Agenda for the Middle East and North Africa was conceived and implemented as an American national interest from the Bush era right through to the initial stages of the Obama administration It highlights how the crisis presented by September 11 2001 led to regime change in Afghanistan and Iraq but more broadly how American policy towards the region had a softer imperial side which drew on broader economic theories of democratisation and modernisation The Freedom Agenda contained within it a prescribed method of combating terrorism but also a method of engaging with and reforming the entire Middle East region more broadly with many institutions seeking to use the opportunity to implement neo liberal market logics in the region Constructing America s Freedom Agenda for the Middle East highlights the particular understanding of freedom that underpins America s imperial project in the region a project trapped between a policy of democratisation and domination This book analyses the Freedom Agenda in significantly more depth than in available current literature and would be of interest to students and researchers of global politics and international foreign policy of recent years Freedom to Live Robert S. Hartman,1994 This book is both a personal and a philosophical autobiography of Robert S Hartman the creator of formal axiology After experiencing first hand the horrible effects of World War I and the beginnings of Nazism in Germany Hartman wondered what could be done to organize goodness instead of badness for a change First the concept of good must be defined Next different kinds of goodness like intrinsic extrinsic and systemic must be differentiated Then this understanding must be used to comprehend and to change the world including its economic political military religious educational intellectual and psychological dimensions By telling his own story Hartman gives his readers a glimpse of the form of the good and of a much better world **Through the Fires to Freedom** David Cuthbertson,1921 **Songs of freedom. own development can be described as a pilgrimage from Calvinism to Arminianism to open theism the present work is able to offer its sympathetic critique in the form of an invitation that we continue to journey in the spirit of openness beyond both heteronomy and autonomy towards a view of divine and human freedom that is covenantal participatory and unlimited
