## **Toronto Architecture A City Guide:**

**Toronto Architecture** Patricia McHugh, Alex Bozickovic, 2017-06-27 Toronto has been hailed as a city in the making and the city that works. It's an ongoing project in recent years. Canada's largest city has experienced transformative exciting change. But just what does contemporary Toronto look like? This authoritative architectural guide, newly updated and expanded, leads readers on 26 walking tours revealing the evolution of the place from a quiet Georgian town to a dynamic global city. More than 1,000 designs are featured, from modest Victorian houses to shimmering downtown towers and cultural landmarks. Over 300 photographs, 29 maps, a description of architectural styles, a glossary of architectural terms and indexes of architects and buildings, pilot readers through Toronto's diverse cityscape. New sections illustrate the swiftly changing face of Toronto's waterfront and design highlights across the region. Originally written by architectural journalist Patricia McHugh and enhanced with new material and insights by Globe and Mail architecture critic Alex Bozickovic, this definitive guide offers a revealing exploration of Toronto's past and future for the city's visitors and locals alike.

**Toronto Architecture** Patricia McHugh, Susan McHugh, 1989 Toronto's Visual Legacy Steve MacKinnon, Karen Teeple, Michele Dale, 2010-04-30 Twenty-five fascinating images that offer a 360° panorama of the Toronto's downtown in 1856-57 mark the beginning of the use of photographs to document Toronto's growth, its achievements, its great civic works, and its citizenry. Since 1856, the City of Toronto has been commissioning photographs to document and to promote it. This book, published to celebrate the 175th anniversary of the city's incorporation, brings together more than 100 of these images selected by city archivists from their collection of hundreds of thousands. Waterworks, roads, and bridges, many of them familiar landmarks today, are seen as they are being built. The Bloor Street Viaduct, the R.C. Harris water filtration plant, and the old and new city halls are all celebrated in these images. Toronto's citizens are also captured in these photographs going about their affairs on the street as proud workers or as spectators at public events. At times, in an effort to raise public concern about poverty and poor housing conditions, city photographers have documented conditions for residents in low-income neighbourhoods. Some of these photographs are included here in an impressive series of poignant images. In the past fifty years, as Toronto has grown into the cosmopolitan metropolis, it is now city photographers have recorded the construction of key projects like the Yonge Street subway, the new City Hall, and the CN Tower, while documenting major public events and celebrations. This book offers a visual overview of Toronto's history and at the same time documents attitudes and values expressed by City officials from 1857 to the present.

**Patterns of the Past** Roger Hall, William Westfall, Laurel Sefton MacDowell, 1996-07-25 *Patterns of the Past* has been published to commemorate the one hundredth anniversary of the founding of the Ontario Historical Society. Organized on 4 Sept 1888 as the Pioneer Association of Ontario, the Society adopted its current name in 1898. Its objectives for a century have been to promote and develop the study of Ontario's past. The purpose of this book is both to commemorate and to carry on that worthy tradition. Introduced by Ian Wilson, Archivist of Ontario, and edited by Roger Hall, William Westfall

and Laurel Sefton MacDowell this distinctive volume is a landmark not only in the Society's history but in the province's historiography. Eighteen scholars have pooled their talents to fashion a volume of fresh interpretive essays that chronicle and analyze the whole scope of Ontario's rich and varied past. New light is thrown on our understanding of early native peoples, rural life in Upper Canada, the opening of the West, the impact of railways and the growth of businesses and institutions. And there is much social study here too, especially of the new roles for women in industrial society, of working class experience of ethnic groups and of children in our society's past. As well, there are innovative treatments of the conservation movement, of science's role in provincial society and of the relationship between society and culture in small towns. Anyone with an interest in the history of Canada's most populous province will find much in this comprehensive collection.

[The Uses of Excess in Visual and Material Culture, 1600-2010](#) Ms Julia Skelly, 2014-08-28. Although the idea of excess has often been used to degrade many of the essays in this collection, demonstrate how it has also been used as a strategy for self-fashioning and empowerment, particularly by women and queer subjects. This volume examines a range of material including ceramics, paintings, caricatures, interior design and theatrical performances in various global contexts. Each case study sheds new light on how excess has been perceived and constructed, revealing how beliefs about excess have changed over time.

**"The Uses of Excess in Visual and Material Culture, 1600-2010"** Julia Skelly, 2017-07-05. Directing unprecedented attention to how the idea of excess has been used by both producers and consumers of visual and material culture, this collection examines the discursive construction of excess in relation to art, material goods and people in various global contexts. The contributors illuminate how excess has been perceived, quantified and constructed, revealing in the process how beliefs about excess have changed over time and how they have remained consistent. The collection as a whole underscores the fact that the concept of excess must always be considered critically, whether in scholarship or in lived experience. Although the idea of excess has often been used to shame and degrade many of the essays in this collection, demonstrate how it has also been used as a strategy for self-fashioning, transgression and empowerment, particularly by women and queer subjects. This volume examines a range of material including diamonds, ceramics, paintings, dollhouses, caricatures, interior design and theatrical performances. Each case study sheds new light on how excess was used in a specific cultural context, including canonical sites of study such as the Netherlands in the eighteenth century, Victorian Britain and Paris in the 1920s and understudied contexts such as Canada and Sweden.

The essays presented in this book explore ethnic emigrant literature produced in the United States of America Canada and Australia providing new perspectives on the major points in the current critical debate about ethnic diversity They should prove useful to all those who are interested professionally or otherwise in the literary experience of emigrants in these countries Several of the essays try to determine the common literary theoretical positions of multi ethnicity and multi culturality as well as the axiological criteria in the critical evaluation of emigrant literature The stress is on the Slovene literary experience in a wider socio cultural sense Other essays deal with the emigrant experience as reflected in the literature of several other European nations which were at some point of their history also emittive for the traditional lands of immigration Thus a broad comparative international forum of discussion is ensured
