## **Usewear Analysis And Obsidian:**

Use Wear Analysis and Obsidian Linda M. Hurcombe,1992-01 This volume investigates a technique for the functional analysis of obsidian tools and a small archaeological case study the lunates from the Bronze Age Sardinian site of Ortu Comidu is examined using the technique and approach It reviews the current state of flint use wear studies and applies the theories generated there to obsidian The experimental programme shows the potential success of the technique which can allow the use action and use material to be interpreted and demonstrates the limitations Residues play an important role as they are more easily seen on obsidian than flint The discussion includes an assessment of wear formation theories and the role of functional information within archaeology The technique and approach is brought to bear on a small archaeological case study the lunates from the Bronze Age Sardinian site of Ortu Comidu

**Use-Wear and Residue Analysis in Archaeology** João Manuel Marreiros, Juan F. Gibaja Bao, Nuno Ferreira Bicho,2014-11-06 This book is designed to act as a readily accessible guide to different methods and techniques of use wear and residue analysis and therefore includes a wide range of different and complementary essential topics experimental tests observation and record methods and techniques and the interpretation of a diversity of tool types and worked raw materials The onset of use wear studies was marked by the development of theory method and techniques in order to infer prehistoric tools functionality and therefore understand human technological social and cultural behavior The last decade of functional studies use wear and residue analysis have been aimed at the observation recording and interpretation of different activities and worked materials found on archaeological tools made on different types of organic and non organic materials This international group of contributions will be fundamental for all researchers and students of the discipline

**an Obsidian Assemblage from the Coromandel, New Zealand** Rose A. Young, 2019 Most studies of M ori socio economy have claimed there was a major shift in the subsistence strategy mobility degree and settlement pattern over time but have not been explicit in how these changes are visible in stone artefact assemblages This thesis investigates how use wear and a technological analysis of obsidian artefacts can be used as a proxy for detecting change or a lack of change in mobility degree and settlement systems at one site A range of experiments were conducted to demonstrate how use wear appears and to provide examples to compare with archaeological flakes A sample of flakes from a M ori site in the Waitapu area located on Great Mercury Island off the coast of the North Island New Zealand was technologically analysed and examined for use wear The site has two periods of occupation and obsidian artefacts from both contexts were analysed to allow for a comparison When compared the results from the two temporal contexts show there was no significant difference in the average extent of use wear nor the proportion of used artefacts Flake selection is indicated with used flakes significantly larger than those that lack use wear The results from this thesis are not able to support the suggestions of substantial shifts in M ori socio economy in the Waitapu area and so provides an example for future use wear studies in New Zealand

**Use-wear Analysis of Flaked Stone Tools** Patrick C. Vaughan, 1985 This important new methodologically oriented

work represents a major step forward in the expanding field of traceological studies. The text is exceptionally well written and documented. Schematic artifacts line drawings clearly indicate different use zones on edges and are preceded by a coded use type key. The 280 x photomicrographs in section III are exceptional as is also the presentation of qualitative and quantitative data. American Antiquity Vaughan's monograph provides a thorough treatment of the high power microscopic approach to lithic use wear analysis and will contribute to the resolution of this issue. An excellent introduction to the subject North American Archaeologist

**Archaeology** Mark Q Sutton, 2015-07-17 Illuminating the world of archaeology Archaeology conveys the excitement of archaeological discovery and explains how archaeologists think as they scientifically find, analyze and interpret evidence. The main objective of this text is to provide an introduction to the broad and fascinating world of archaeology from the scientific perspective. Discussions on the theoretical aspects of archaeology as well as the practical applications of what is learned about the past have been updated and expanded upon in this fourth edition. Learning Goals: Upon completing this book, readers will be able to: Discuss the theoretical aspects of archaeology; Apply what has been learned about the past; Identify the various perspectives archaeologists have.
