View Of Dawn In Tropics:

View of Dawn in the Tropics Guillermo Cabrera Infante, 1981 **Cuban-American Literature of Exile** Isabel Alvarez-Borland, 1998 The Cuban revolution of 1959 initiated a significant exodus with more than 700 000 Cubans eventually settling in the United States This community creates a major part of what is now known as the Cuban diaspora In Cuban American Literature of Exile Isabel Alvarez Borland forces the dialogue between literature and history into the open by focusing on narratives that tell the story of the 1959 exodus and its aftermath Alvarez Borland pulls together a diverse array of Cuban American voices writing in both English and Spanish often from contrasting perspectives and approaches over several generations and waves of immigration Writers discussed include Guillermo Cabrera Infante Reinaldo Arenas Roberto Fernandez Achy Obejas and Cristina Garcia The author s analysis of their works uncovers a movement from narratives that reflect the personal loss caused by the historical fact of exile to autobiographical writings that reflect the need to search for a new identity in a new language to fictions that dramatize the authors constructed Cuban American personae If read collectively she argues these sometimes dissimilar texts appear to be in dialogue with one another as they all document a people s quest to reinvent themselves outside their nation of origin Cuban American Literature of Exile encourages readers to consider the evolution of Cuban literature in the United States over the last forty years Alvarez Borland defines a new American literature of Cuban heritage and documents the changing identity of an exiled literature Julian Schnabel Julian Schnabel, 1997 The Voice of the Masters Roberto González Echevarría, 2010-07-05 By one of the most original and learned critical voices in Hispanic studies a timely and ambitious study of authority as theme and authority as authorial strategy in modern Latin American literature An ideology is implicit in modern Latin American literature argues Roberto Gonz lez Echevarr a through which both the literature itself and criticism of it define what Latin American literature is and how it ought to be read In the works themselves this ideology is constantly subjected to a radical critique and that critique renders the ideology productive and in a sense is what constitutes the work In literary criticism however too frequently the ideology merely serves as support for an authoritative discourse that seriously misrepresents Latin American literature In The Voice of the Masters Gonz lez Echevarr a attempts to uncover the workings of modern Latin American literature by creating a dialogue of texts a dynamic whole whose parts are seven illuminating essays on seminal texts in the tradition As he says To have written a sustained expository book would have led me to make the same kind of critical error that I attribute to most criticism of Latin American literature I would have naively assumed an authoritative voice while attempting a critique of precisely that critical gesture Instead major works by Barnet Cabrera Infante Carpentier Cort zar Fuentes Gallegos Garc a M rquez Roa Bastos and Rod are the object of a set of independent deconstructive and reconstructive readings Writing in the tradition of Derrida and de Man Gonz lez Echevarr a brings to these readings both the penetrative brilliance of the French master and a profound understanding of historical and cultural context His insightful annotation of Cabrera Infante s *Meta*

End the full text of which is presented at the close of the study clearly demonstrates these qualities and exemplifies his particular approach to the text

The Tropics of Empire Nicolas Wey Gomez, 2008-06-13 A radical revision of the geographical history of the discovery of the Americas that links Columbus s southbound route with colonialism slavery and today s divide between the industrialized North and the developing South Everyone knows that in 1492 Christopher Columbus sailed west across the Atlantic seeking a new route to the East Few note however that Columbus s intention was also to sail south to the tropics In *The Tropics of Empire* Nicol s Wey G mez rewrites the geographical history of the discovery of the Americas casting it as part of Europe s reawakening to the natural and human resources of the South Wey G mez shows that Columbus shared in a scientific and technical tradition that linked terrestrial latitude to the nature of places and that he drew a highly consequential distinction between the higher cooler latitudes of Mediterranean Europe and the globe s lower hotter latitudes The legacy of Columbus s assumptions Wey G mez contends ranges from colonialism and

slavery in the early Caribbean to the present divide between the industrialized North and the developing South This distinction between North and South allowed Columbus to believe not only that he was heading toward the largest and richest lands on the globe but also that the people he would encounter there were bound to possess a nature whether childish or monstrous that seemed to justify rendering them Europe s subjects or slaves The political lessons Columbus drew from this distinction provided legitimacy to a process of territorial expansion that was increasingly being construed as the discovery of the vast and unexpectedly productive torrid zone The Tropics of Empire investigates the complicated nexus between place and colonialism in Columbus s invention of the American tropics It tells the story of a culture intent on remaining the moral center of an expanding geography that was slowly relegating Europe to the northern fringe of the globe Wey G mez draws on sources that include official debates over Columbus s proposal to the Spanish crown Columbus s own writings and annotations and accounts by early biographers The Tropics of Empire is illustrated by color reproductions of period maps that make vivid the geographical conceptions of Columbus and his contemporaries
