History of Mexico Hubert Howe Bancroft,1888 **Chicano Manual on How to Handle Gringos** Jos? Angel Guti?rrez,2003-04-30 Under this somewhat threatening title the renowned civil rights leader Jos Angel Guti rrez provides a guidebook to minority empowerment through the use of analysis practical experience and anecdote His primary goal is the conversion of Latino demographic power into educational economic and political power In an incisive introduction Guti rrez analyzes the types of power and evaluates Chicano and Latino access to power at various levels in U S society In very plain down to earth language and examples Guti rrez takes pains to make his broad knowledge and experience available to everyone but especially to those who want to be activists for themselves and their communities For him the empowerment of a minority or working class person can transfer into greater empowerment of the whole community This manual penned by the founder of the only successful Hispanic political party La Raza Unida brings together an impressive breadth of models to either follow or avoid Quite often Guti rrez s voice is not only the seasoned voice of reason but also that of humor wry wit and satire If nothing else The Chicano Manual on How to Handle Gringos is a wonderful survey of the Chicano and Latino community on the move in all spheres of life in the United States on the very eve of its demographic and cultural ascendancy

Left of Hollywood Chris Rob?e,2011-11-15 In the 1930s as the capitalist system faltered many in the United States turned to the political Left Hollywood so deeply embedded in capitalism was not immune to this shift Left of Hollywood offers the first book length study of Depression era Left film theory and criticism in the United

States Rob studies the development of this theory and criticism over the course of the 1930s as artists and intellectuals formed alliances in order to establish an engaged political film movement that aspired toward a popular cinema of social change. Combining extensive archival research with careful close analysis of films, Rob explores the origins of this radical social formation of U.S. Left film culture. Grounding his arguments in the surrounding contexts and aesthetics of a few films in particular—Sergei Eisenstein's *Que Viva Mexico*, Fritz Lang's *Fury*, William Dieterle's *Juarez*, and Jean Renoir's *La Marseillaise*—Rob focuses on how film theorists and critics sought to foster audiences who might push both film culture and larger social practices in more progressive directions. Turning at one point to anti-lynching films, Rob discusses how these movies united black and white film critics, forging an alliance of writers who championed not only critical spectatorship but also the public support of racial equality. Yet despite a stated interest in forging more egalitarian social relations, gender bias was endemic in Left criticism of the era, and female-centered films were regularly discounted. Thus Rob provides an in-depth examination of this overlooked shortcoming of U.S. Left film criticism and theory.

Mexico Through Russian Eyes, 1806-1940 William Harrison Richardson, 2010-11-23 In this unique book, William Richardson analyzes the descriptions given of Mexico by an assortment of Russian visitors—from the employees of the Russian American Company who made their first contacts in the early nineteenth century to the artists, diplomats, and exiles of the twentieth century. He explores the biases they brought with them and the interpretations they relayed back to readers at home. Richardson finds that Russians had a particular empathy for the Mexicans, sharing a perceived similarity in their histories: conquest by a foreign power, a long period of centralized authoritarian rule, an attempt at liberal reform followed by revolution.

History of Mexico: 1861-1887 Hubert Howe Bancroft, 1888

Psychologies in Revolution Hannah Proctor, 2020-01-13 This book situates the work of the Soviet psychologist and neurologist Alexander Luria (1902-1977) in its historical context and explores the romantic approach to scientific writing developed in his case histories. Luria consistently asserted that human consciousness was formed by cultural and historical experience. He described psychology as the science of social history, and his ideas about subjectivity, cognition, and mental health have a history of their own. Lines of mutual influence existed between Luria and his colleagues on the other side of the iron curtain, but *Psychologies in Revolution* also discusses Luria's research in relation to Soviet history from the October Revolution of 1917 through the collectivisation of agriculture and Stalinist purges of the 1930s to the Second World War, and finally the relative stability of the Brezhnev era, foregrounding the often marginalised people with whom Luria's clinical work brought him into contact. By historicising science and by focusing on a theoretical approach which itself emphasised the centrality of social and political factors for understanding human subjectivity, the book also seeks to contribute to current debates in the medical humanities.
