Staging Marriage in Early Modern Spain Gabriela Carrión, 2011-04-18 *Staging Marriage in Early Modern Spain* examines selected dramatic works where the vicissitudes of matrimony play center stage Various aspects of conjugal relations including courtship divorce and widowhood take on particular relevance in the Spanish comedia in light of the intense debates raging over the seventh sacrament in early modern Europe The institution of matrimony is subject to unprecedented scrutiny during this period and provides a rich source of material for playwrights such as Lope de Vega Miguel de Cervantes and Pedro Calderón de la Barca Taking the decrees on marriage of the Council of Trent 1563 as a point of departure Carrión examines the conjugal bond within a literary and historical framework offering close readings of dramatic works religious decrees and moral treatises where the conjugal bond plays a central role She identifies in works such as Lope's *Peribez y el Comendador de Oca* a Cervantes *El juez de los divorcios* and Calderón's *El medico de su honra* the emergence of more modern perspectives on marriage One of the central questions this study raises is the degree to which the dramatic works of early modern Spain conform to the morality espoused by the treatises that defined marriage at the time While the tone of prescriptive discourses contrasts with the lyrical voices of the Spanish stage both reveal a number of inherent and compelling contradictions in their views of the conjugal bond

Europe's Welfare Traditions Since 1500, Volume 1 Thomas McStay Adams, 2023-01-26 *Tracing the interwoven traditions of modern welfare states in Europe over five centuries* Thomas McStay Adams explores social welfare from Portugal France and Italy to Britain Belgium and Germany He shows that the provision of assistance to those in need has faced recognizably similar challenges from the 16th century through to the present how to allocate aid equitably and with dignity how to give support without undermining autonomy and motivation and how to balance private and public spheres of action and responsibility Across two authoritative volumes Adams reveals how social welfare administrators critics and improvers have engaged in a constant exchange of models and experience locally and across Europe The narrative begins with the founding of the Casa da Misericordia of Lisbon in 1498 a model replicated throughout Portugal and its empire and ends with the relaunch of a social agenda for the European Union at the meeting of the Council of Europe in Lisbon in 2000 Volume 1 which focuses on the period from 1500 to 1700 discusses the concepts of welfare and tradition It looks at how 16th century humanists joined with merchants and lawyers to renew traditional charity in distinctly modern forms and how the discipline of religious reform affected the exercise of political authority and the promotion of economic productivity Volume 2 examines 18th century bienfaisance which secularized a Christian humanist notion of beneficence producing new and sharply contested assertions of social citizenship It goes on to consider how national struggles to establish comprehensive welfare states since the second half of the 19th century built on the power of the vote as politicians pushed by activists and advised by experts appealed to a growing class of industrial workers Lastly it looks at how 20th century welfare states addressed aspirations for social citizenship while the institutional
