

HUMAN RIGHTS DAY

Voice For Human Rights

Edgar S. Werner

Voice For Human Rights:

A Voice for Human Rights Mary Robinson, 2010-11-24 Few names are so closely connected with the cause of human rights as that of Mary Robinson As former President of Ireland she was ideally positioned for passionately and eloquently arguing the case for human rights around the world Over five tumultuous years that included the tragic events of 9 11 she offered moral leadership and vision to the global human rights movement This volume is a unique account in Robinson s own words of her campaigns as United Nations High Commissioner for Human Rights *A Voice for Human Rights* offers an edited collection of Robinson s public addresses given between 1997 and 2002 when she served as High Commissioner The book also provides the first in depth account of the work of the Office of High Commissioner for Human Rights With a foreword by Kofi Annan and an afterword by Louise Arbour the current High Commissioner for Human Rights the book will be of interest to all concerned with international human rights international relations development and politics **Seeing Human Rights**

Sandra Ristovska, 2021-08-03 As video becomes an important tool to expose injustice an examination of how human rights organizations are seeking to professionalize video activism Visual imagery is at the heart of humanitarian and human rights activism and video has become a key tool in these efforts The Saffron Revolution in Myanmar the Green Movement in Iran and Black Lives Matter in the United States have all used video to expose injustice In *Seeing Human Rights* Sandra Ristovska examines how human rights organizations are seeking to professionalize video activism through video production verification standards and training The result she argues is a proxy profession that uses human rights videos to tap into journalism the law and political advocacy Ristovska explains that this proxy profession retains some tactical flexibility in its use of video while giving up on the more radical potential and imaginative scope of video activism as a cultural practice Drawing on detailed analysis of legal cases and videos as well as extensive interviews with staff members of such organizations as Amnesty International Human Rights Watch WITNESS the International Criminal Tribunal for the former Yugoslavia ICTY and the International Criminal Court ICC Ristovska considers the unique affordances of video and examines the unfolding relationships among journalists human rights organizations activists and citizens in global crisis reporting She offers a case study of the visual turn in the law describes advocacy and marketing strategies and argues that the transformation of video activism into a proxy profession privileges institutional and legal spaces over broader constituencies for public good **The**

Voice of the People? Wim Blockmans, 2024-01-31 Over the last two centuries Europe has developed various forms of political representation from which democratic parliamentary systems gradually emerged This book unravels the conditions scale and impact under which political participation of common burghers and peasants emerged Political participation in Europe before the Revolutions moved away from the traditional focus on Three Estates which has often blurred the interpretation of popular participation s role in societies This book instead examines Europe s key political variants such as high levels of commercialization and urbanization combined with a balance of powers between competing categories of

actors in society controlling relatively independent resources which lead to political participation forming across the continent Instead of starting from any ideal type of political participation this book focuses on the variation through time and space its composition and activity helps to explain the functions particular institutional settings fulfilled The time frame 1100 1800 sheds light on the long term evolutions such as institutional inertia and processes of oligarchizing To reveal a correlation of economic and demographical growth with the claim of rising social classes to voice their interests It also points to the opposite tendency the formation of fiscalmilitary monarchical states This book is essential reading for those interested in the formation of Europe s political structures and students of premodern political history

Voices at Work Alan Bogg, Tonia Novitz, 2014-04-03 This edited collection is the culmination of a comparative project on Voices at Work funded by the Leverhulme Trust 2010 2013 The book aims to shed light on the problematic concept of worker voice by tracking its evolution and its complex interactions with various forms of law Contributors to the volume identify the scope for continuity of legal approaches to voice and the potential for change in a sample of industrialised English speaking common law countries namely Australia Canada New Zealand UK and USA These countries facing broadly similar regulatory dilemmas have often sought to borrow and adapt certain legal mechanisms from one another The variance in the outcomes of any attempts at borrowing seems to demonstrate that despite apparent membership of a common law family there are significant differences between industrial systems and constitutional traditions thereby casting doubt on the notion that there are definitive legal solutions which can be applied through transplantation Instead it seems worth studying the diverse possibilities for worker voice offered in divergent contexts not only through traditional forms of labour law but also such disciplines as competition law human rights law international law and public law In this way the comparative study highlights a rich multiplicity of institutions and locations of worker voice configured in a variety of ways across the English speaking common law world This book comprises contributions from many leading scholars of labour law politics and industrial relations drawn from across the jurisdictions and is therefore an exceedingly comprehensive comparative study It is addressed to academics policymakers legal practitioners legislative drafters trade unions and interest groups alike Additionally while offering a critique of existing laws this book proposes alternative legal tools to promote engagement with a multitude of voices at work and therefore foster the effective deployment of law in industrial relations

Papers and Proceedings American Library Institute, 1920 List of fellows in 1915 and 1921

Native Voices Richard A. Grounds, George E. Tinker, David Eugene Wilkins, 2003 Native peoples of North America still face an uncertain future due to their unstable political legal and economic positions Views of their predicament continue to be dominated by non Indian writers In response a dozen Native American writers here reclaim their rightful role as influential voices in debates about Native communities These scholars examine crucial issues of politics law and religion in the context of ongoing Native American resistance to the dominant culture They particularly show how the writings of Vine Deloria Jr have shaped and

challenged American Indian scholarship in these areas since 1960s They provide key insights into Deloria s thought while introducing some critical issues confronting Native nations Collectively these essays take up four important themes indigenous societies as the embodiment of cultures of resistance legal resistance to western oppression against indigenous nations contemporary Native religious practices and Native intellectual challenges to academia Essays address indigenous perspectives on topics usually treated by non Indians such as role of women in Indian society the importance of sacred sites to American Indian religious identity and relationship of native language to indigenous autonomy A closing essay by Deloria in vintage form reminds Native Americans of their responsibilities and obligations to one another and to past and future generations This book argues for renewed cultivation of a Native American Studies that is more Indian centered Is there a God of Human Rights? Johannes A. van der Ven, Jaco Dreyer, Hendrik Pieterse, 2005-04-01 This volume deals with historical systematic and empirical questions with regard to the complex relationship between human rights and religion It focuses on the place and function of human rights in democracies in modern society Moreover it elaborates on the problems which are implied in the complex relationship between human rights and religion from the beginning Lastly it investigates the positive negative and ambivalent empirical effects of religious attitudes on human rights attitudes among some youth in South Africa

Werner's Voice Magazine Edgar S. Werner, 1897 Human Rights Robert McCorquodale, 2003 Theories of human rights are important as they can be a means to challenging entrenched and oppressive power These key essays take a philosophical approach to human rights questioning dominant theories and offering different perspectives on their application **The Public** Louis Freeland Post, Alice Thacher Post, Stoughton Cooley, 1911 Papers and Discussion at the Meeting ... American Library Institute, 1913 The Case for Gay Rights David A. J. Richards, 2005 As Americans wrestle with debates over traditional values defense of marriage and gay rights reason often seems to take a back seat to emotion In response legal scholar Richards reflects upon the constitutional and democratic principles relating to privacy intimate life free speech tolerance and conscience that underpin these often heated debates The distillation of Richards s thirty year advocacy for the rights of gays and lesbians his book provides a reflective treatise on basic human rights that touch all of our lives He places in context two key Supreme Court cases the 1986 Bowers v Hardwick decision and the 2003 Lawrence v Texas decision which overturned it Drawing upon his own experiences as a gay man Richards interweaves personal observations with philosophical political judicial and psychological insights to make a case that gays should be entitled to the same rights and protections that every American enjoys From publisher description *The Voice of America on Kishineff* Cyrus Adler, 1904 **A Voice of Our Own** Nancy M. Neuman, 1996-05-02 Prominent activists academics politicians journalists mothers and daughters celebrate the indomitable spirit of the American woman and reflect on what democracy means to women s lives *The voice of America on Kishineff, ed. by C. Adler* Jewish publication society of America, 1904

Religion, Pluralism, and Reconciling Difference W. Cole Durham, Jr., Donlu D. Thayer, 2018-11-22 We live in an

increasingly pluralized world This sociological reality has become the irreversible destiny of humankind Even once religiously homogeneous societies are becoming increasingly diverse Religious freedom is modernity s most profound if sometimes forgotten answer to the resulting social pressures but the tide of pluralization threatens to overwhelm that freedom s stabilizing force Religion Pluralism and Reconciling Difference is aimed at exploring differing ways of grappling with the resulting tensions and then asking will the tensions ultimately yield poisonous polarization that erodes all hope of meaningful community Or can the tradition and the institutions protecting freedom of religion or belief be developed and applied in ways that still foster productive interactions stability and peace This volume brings together vital and thoughtful contributions treating aspects of these mounting worldwide tensions concerning the relationship between religious diversity and social harmony The first section explores controversies surrounding religious pluralism from different starting points including religious political and legal standpoints The second section examines different geographical perspectives on pluralism Experts from North and South America Europe Africa and the Middle East address these issues and suggest not only how social institutions can reduce tensions but also how religious pluralism itself can bolster needed civil society
