Why Not Capitalism:

Why Not Capitalism? Jason Brennan, 2014-05-13 Most people believe capitalism is a compromise with selfish human nature As Adam Smith put it It is not from the benevolence of the butcher the brewer or the baker that we expect our dinner but from their regard to their own interest Capitalism works better than socialism according to this thinking only because we are not kind and generous enough to make socialism work If we were saints we would be socialists In *Why Not Capitalism* Jason Brennan attacks this widely held belief arguing that capitalism would remain the best system even if we were morally perfect Even then private property and free markets would be the best way to realize mutual cooperation social justice harmony and prosperity Socialists seek to capture the moral high ground by showing that ideal socialism is morally superior to realistic capitalism But Brennan responds ideal capitalism is superior to ideal socialism and so capitalism beats socialism at every level Clearly engagingly and at times provocatively written *Why Not Capitalism* will cause readers of all political persuasions to re evaluate where they stand vis vis economic priorities and systems as they exist now and as they might be improved in the future In this expanded second edition Brennan responds to his critics throughout the book and provides two new final chapters One argues against egalitarianism in a capitalist utopia because egalitarianism frequently misdiagnoses the problems for example the problem with poverty isn t that poor people have less but that they don t have enough The other new chapter shows that we don t need to be angels in an anarchic utopia but merely decent people who are willing to adhere to four undemanding moral principles

Pope Francis and the Caring Society Robert M. Whaples, 2017-09-01 Pope Francis and the Caring Society is a thoughtful and in depth exploration of the Pope s earnest call for a dialogue on building a truly compassionate society Francis s fervent support for uplifting the poor and protecting the environment has inspired far reaching discussions worldwide What is the most effective way to fight poverty Can environmental resources be better protected with property rights Are the poor better off under a market

economy And what value does a religious perspective offer in addressing moral political and economic problems Pope Francis and the Caring Society is an indispensable resource for consideration of these vital questions Edited by Robert M Whaples with a foreword by Michael Novak the book provides an integrated perspective on Francis and the issues he has raised examining the intersection of religion politics and economics Readers will discover important historical and cultural context for considering Francis s views along with non bureaucratic solutions for environmental preservation an analysis of Francis s criticism of power and privilege the case for market based entrepreneurship and private charity as the essential tools for fighting poverty and an examination of Francis s philosophy of the family Pope Francis and the Caring Society is essential reading for anyone interested in creating a better more caring and prosperous world [A Buddha Land in This World](#) Lajos Brons,2022 In the early twentieth century Uchiyama Gud Seno o Gir Lin Qiuwu and others advocated a Buddhism that was radical in two respects Firstly they adopted a more or less naturalist stance with respect to Buddhist doctrine and related matters rejecting karma or other supernatural beliefs And secondly they held political and economic views that were radically anti hegemonic anti capitalist and revolutionary Taking the idea of such a radical Buddhism seriously A Buddha Land in This World Philosophy Utopia and Radical Buddhism asks whether it is possible to develop a philosophy that is simultaneously naturalist anti capitalist Buddhist and consistent Rather than a study of radical Buddhism then this book is an attempt to radicalize it The foundations of this radicalized radical Buddhism are provided by a realist interpretation of Yog c ra elucidated and elaborated with some help from thinkers in the broader Tiantai Tendai tradition and American philosophers Donald Davidson and W V O Quine A key implication of this foundation is that only this world and only this life are real from which it follows that if Buddhism aims to alleviate suffering it has to do so in this world and in this life Twentieth century radical Buddhists as well as some engaged Buddhists came to a similar conclusion often expressed in their aim to realize a Buddha land in this world Building on this foundation but also on Mah y na moral philosophy this book argues for an ethics and social philosophy based on a definition of evil as that what is or should be expected to cause death or suffering On that ground capitalism should be rejected indeed but utopianism must be treated with caution as well which raises questions about what it means from a radicalized radical Buddhist perspective to aim for a Buddha land in this world Lajos Brons is a Dutch philosopher and social scientist living in Japan After receiving a PhD from the University of Groningen in the Netherlands for a dissertation on an aspect of the history and philosophy of the social sciences he gradually moved further and further into philosophical territory Currently Lajos is teaching logic ethics and philosophy at a university in Tokyo His research interests are divided over two broad areas in philosophy one is in the overlap of meta ethics and social political philosophy the other is in the intersection of philosophy of language metaphysics and epistemology Research in the former focuses on the relations between death suffering and compassion Research in the latter concerns the relations between language thought and reality and is heavily influenced by the philosophies of Donald Davidson and W V O Quine and by
