Psychology of Black Womanhood Danielle Dickens,Dionne Stephens,2024-06-05 Psychology of Black Womanhood is the first textbook to provide an authoritative jargon free affordable and holistic exploration of the sociohistorical and psychological experiences of Black girls and women in the United States while discussing the intersection of their identities The authors include research on young middle aged and maturing women LGBTQ women and non binary individuals women with disabilities and women across social classes This textbook is firmly rooted in Black feminist womanist and psychological frameworks that incorporate literature from related disciplines such as sociology Black African American studies women s studies and public health Psychology of Black Womanhood speaks to the psychological study of experiences of girls and women of African descent in

the United States and their experiences in the context of identity development education religion body image physical and mental health racialized gendered violence sex and sexuality work relationships aging motherhood and activism This textbook has implications for practice in counseling social work health care education advocacy and policy *The Neuropsychology of Women* Elaine Fletcher-Janzen, 2008-12-19 The Diversity in Clinical Neuropsychology series is designed to highlight cultural and moderator variables involved in the study of brain behavior relationships Historically the study of psychology and neuropsychology has focused on the male brain being the standard to which all or most variables are considered The study of sex differences is perhaps the most provoking and far reaching aspect of diversity because frequently women have unique assessment and treatment needs For example frontal lobe functioning tends to be more contextual for women than for men These brain functions have behavioral counterparts that directly relate to how interventions may be tailor made to suit the female rather than male patient The goal in neuropsychology is always to improve diagnosis and treatment outcomes and a cohesive summary of the neuropsychology of the female brain would raise awareness and cultural competency of clinicians in neuropsychology Authors will focus on sex differences in the neuropsychological cognitive and development literature ethnic and socioeconomic variables affecting diagnosis and treatment of women and social emotional and behavioral manifestations of neuropsychological sex differences
