Sacred Architecture in a Secular Age Marie Clausén,2016-02-26 Having won more than one recent poll as Britain s best loved building the appeal of Durham Cathedral appears abiding which begs the question whether an iconic sacred building can retain meaning and affective pertinence for contemporary secular visitors Using the example of Durham Cathedral this book sets out to explore wherein the appeal of historic churches lies today and considers questions of how and why their preservation into a post Christian era should be secured By including feedback from visitors to the cathedral and the author s own very personal account of the cathedral in the form of an ekphrasis this work seeks to privilege an interpretation of architecture that is based on the individual experience rather than on more conventional narratives of architecture history and cultural heritage policy Recognising the implication of our choice of narrative on the perceived value of historic churches is crucial when deliberating their future role This book puts forth a compelling case for historical sacred architecture suggesting that its loss through imperceptive conservation practices as much as through neglect or demolition would diminish us all secularists atheists and agnostics included **The Building Material Merchant for Dealers in Building Materials and Lumber** ,1928 **Everybody's Magazine** ,1922 The Eastern Old Japanese Corpus and Dictionary Alexander Vovin,Sambi Ishisaki-Vovin,2021-10-18 This book presents for the first time all texts constituting the Eastern Old Japanese corpus as well as the dictionary including all lexical items found Unlike its relative Western Old Japanese Eastern Old Japanese is not based on the language of just two geographic localities but is stretched along several provinces of Ancient Japan along the Pacific Seaboard modern Aichi to Ibaraki and across the island of Honsh from Etch Modern Toyama and parts of Ishikawa province to Shinano and Kai provinces modern Nagano and Yamanashi Therefore references to places
