Y2k Its Already Too Late:

Y2K Jason Kelly,1998 **Y2K** Jason Kelly,1998 Para-Sites George E. Marcus,2000-04-15 Para Sites the penultimate volume in the Late Editions series explores how social actors located within centers of power and privilege develop and express a critical consciousness of their own situations Departing from the usual focus of ethnography and cultural analysis on the socially marginalized these pieces probe subjects who are undeniably complicit with powerful institutional engines of contemporary change In each case the possibility of alternative thinking or practices is in complex relation to the subject s source of empowerment These cases challenge the condition of cynicism that has been the favored mode of characterizing the mind set of intellectuals and professionals comfortable in their lives of middle class consumption and work In their effort to establish para sites of critical awareness parallel to the levels of political and economic power at which they function these subjects suggest that those who lead ordinary lives of modest power and privilege might not be parasites in relation to the systems they serve but may be creating unique and independent critical perspectives **PREPPERS: HISTORY AND THE**

CULTURAL PHENOMENON Lynda King,2014-08-07 The word prepper seems to have burst onto the scene within the last 10 years and has increasingly become associated with fringe extremists They have been labeled by some as domestic terrorists But is prepping a new phenomenon Or is it a manifestation of a growing collective psyche that has learned from traumatic events throughout our history that preparedness is critical to human survival For new preppers who think the worst is yet to come this book offers a walk through history that shows the worst has been here before For those who wonder why so many people are concerned about being prepared this book will show that when the worst has made an appearance those who weathered it best were those who were prepared For those already familiar with history s worst who think THAT will never happen again this book offers a reminder of the Wall Street adage Past performance is no guarantee of future results For those who wonder what a prepper is this book offers a look at what they used to be and what they are today
