**Teaching Music Performance in Higher Education** Helen Julia Minors, Stefan Östersjö, Gilvano Dalagna, Jorge Salgado Correia, 2024-05-27 Higher Music Performance Education as taught and learned in universities and conservatoires in Europe is undergoing transformation Since the nineteenth century the master apprentice pedagogical model has dominated creating a learning environment that emphasises the development of technical skills rather than critical and creative faculties This book contributes to the renewal of this field by being the first to address the potential of artistic research in developing student centred approaches and greater student autonomy This potential is demonstrated in chapters illustrating artistic research projects that are embedded within higher music education courses across Europe with examples ranging from instrumental tuition and ensemble work to the development of professional employability skills and inclusive practices Bringing together diverse and experienced voices working within Higher Music Education but often also as professional performers this edited collection pairs critical reflection with artistic insight to present new approaches to curricula for teaching interpretation and performance It calls for greater collaboration between Higher Education and professional music institutions to create closer bonds with music industries and thereby improve students career opportunities Teaching Music Performance in Higher Education will appeal to scholars performers teachers but also students whose interests centre on innovative practices in conservatoires and music departments

**Performance in Theatre and Everyday Life: Cognitive, Neuronal, and Applied Aspects of Acting** Corinne Jola, Pil Hansen, 2021-09-30 *Musical Imaginations* David Hargreaves, Dorothy Miell, Raymond MacDonald, 2012 Musical imagination and creativity are amongst the most abstract and complex aspects of musical behaviour though until recently they have been difficult to subject to empirical enquiry However music psychology and some allied disciplines have now developed both theoretically and methodologically to the point where some of these topics are now firmly within our grasp The study of creativity and imagination is growing rapidly in disciplines including psychology sociology neuroscience and education The inter and multidisciplinary study of music and developments in music psychology in particular mean that studies of musical imagination and creativity in action are now distinctly possible Musical Imaginations is a wide ranging multidisciplinary review of the latest theory and research on musical creativity performance and perception by some of the most eminent scholars in their respective disciplines The topics addressed in this book include the investigation of creativity and imagination in music and emotion composition and improvisation performance and performance traditions listening strategies different musical genres and cultural belief systems socialcollaboration identity formation and the development of psychologically based strategies and interventions for the enhancement of performing musicians With creativity now a topic of significant interest this book will be valuable to all those in the fields of psychology sociology neuroscience education as well as to musicians themselves dealing with practical as well as theoretical issues in music therapy performance and education The study of creativity and imagination is growing rapidly

in disciplines including psychology sociology neuroscience and education The inter and multidisciplinary study of music and developments in music psychology in particular mean that studies of musical imagination and creativity in action are now distinctly possible This book undertakes a multidisciplinary review of these developments It contains a wide range of contributions by some of the most eminent scholars in their respective disciplines representing a comprehensive account of the state of the art of theory and research on musical creativity performance and perception
