out to the only one who might know something about her family's deaths and their possibly erroneous death certificates Dr Hartford the daughter of Freeport's former medical examiner Finding it impossible to believe that her scrupulous father made a mistake Emily joins Solange's pursuit of the truth and as subzero temperatures blanket snow covered Michigan the two women pursue justice in two very different ways But lurking nearby in the frigid cold is a crafty unrepentant killer determined to finish what he started long ago

Apocalyptic Dread Kirsten Moana Thompson, 2012-02-01 In *Apocalyptic Dread* Kirsten Moana Thompson examines how fears and anxieties about the future are reflected in recent American cinema Through close readings of such films as *Cape Fear* *Candyman* *Dolores Claiborne* *Se7en* *Signs* and *War of the Worlds* Thompson argues that a longstanding American apocalyptic tradition permeates our popular culture spreading from science fiction and disaster films into horror crime and melodrama Drawing upon Kierkegaard's notion of dread that is a fundamental anxiety and ambivalence about existential choice and the future Thompson suggests that the apocalyptic dread revealed in these films and its guiding tropes of violence retribution and renewal also reveal deep seated anxieties about historical fragmentation and change anxieties that are in turn displaced onto each film's particular monster whether human demonic or eschatological

The Avenue of the Giants Marc Dugain, 2014-06-03 Based on a true story this extremely compelling novel delves into the mind of a murderer Booklist The

Avenue of the Giants follows Al Kenner as he progresses from antisocial adolescent to full fledged serial killer in the turbulent 1960s and 70s. A giant at over seven feet tall with an IQ higher than Einstein's, Al was never ordinary. His life is tainted by his parents' divorce and his mother's abusive behavior, and it takes a chilling turn on the day of John F. Kennedy's assassination. Al spends five years in a psychiatric hospital, and although he convinces the staff that he is of sound mind, he continues to harbor vicious impulses. He goes on to lead a double life, befriend the Santa Cruz, California police chief, and contemplating marrying his daughter, all the while committing a series of brutal murders. Delving into the mind of this complex killer, this novel by the prize-winning author of *The Officers' Ward* was inspired by the real-life case of Edmund Kemper and powerfully evokes an America torn between the pacifism of the hippie movement and the violence of Vietnam.
