The Comanche Trues:

True Tales of the Texas Frontier C. Herndon Williams, 2013-05-07 For eight centuries the Texas frontier has seen conquest exploration immigration revolution and innovation leaving to history a cast of fascinating characters and captivating tales Its historic period began in 1519 with Spanish exploration but there was a prehistory long before nearly fifteen thousand years earlier with the arrival of people to Texas Each story pulls a new perspective from this long history by examining nearly all angles from archaeology to ethnography astronomy agriculture and more These true stories prove to be unexpected sometimes contrarian and occasionally funny but always fascinating Join author and historian C Herndon Williams as he recounts his exploration of nearly a millennium of the Texas frontier *Comanches and Texans in the Making of the Comanche Nation* Andrew McKee Jones, 1997 Man in Adaptation Yehudi A. Cohen, 2022-04-19 Underlying the anthropological study of man is the principle that there is a reality to which man must adapt if he is to survive Reproduce and to perpetuate himself Populations must adapt to the realities of the physical world and maintain a proper fit between their biological makeup and the pressures of the various niches of the world in which they seek to live Social groups where culture is found must develop adaptive mechanisms in the organization of their social relations if there is to be order regularity and predictability in patterns of cooperation and competition and if they are to survive as viable units This three volume set of readings presents an introduction to anthropology that is unified and made systematic by focus on adaptations that have accompanied the evolution of man from non human primate to inhabitant of vast urban areas in modern industrial societies *Man in Adaptation The Cultural Present* introduces Cultural Anthropology also from the point of view of adaptation and provides coherence for the study of human societies from man s social beginnings to the present The book deals sequentially with the more and more complex technologies and political and social structures that have enabled different societies to make effective use of the energy potentials in their habitats This and the two companion volumes are the first attempt to unify the disparate subject matter of anthropology within a single and powerful explanatory framework They incorporate the work of the most renowned anthropological experts on man and they illuminate clearly one of the most important concepts around which one can build an investigation of the nature and scope of anthropology itself For these reasons they are recognized as indispensable reading for every professional anthropologist and as perhaps the best available means of introducing new students to the field Man in Adaptation Yehudi A. Cohen, Includes chapters on hunting and gathering horticulture pastoralism agriculture and transitions to modernity in societies and cultures around the world True Stories of Old Houston and Houstonians Samuel Oliver Young, 1913 The stories in this book historical and personal sketches owe their being largely to chance The whole series was unintentionally begun and the letters letters have come from all parts of the state and from several Eastern and Northern states The stories are highly enjoyable for each one will bring back some pleasant memory of oldtimes Houston Half-True Stories Stanton Davis Kirkham, 1916 **Modern Eloquence, Founded**
