The Sandlot:

The Baseball Film Aaron Baker, 2022-01-14 Baseball has long been viewed as the Great American Pastime so it is no surprise that the sport has inspired many Hollywood films and television series. But how do these works depict the game, its players, fans, and place in American society? This study offers an extensive look at nearly one hundred years of baseball-themed movies, documentaries, and TV shows. Film and sports scholar Aaron Baker examines works like *A League of Their Own* (1992) and *Sugar* (2008) which dramatize the underrepresented contributions of female and immigrant players alongside classic baseball movies like *The Natural* that are full of nostalgia for a time when native-born white men could use the game to achieve the American dream. He further explores how biopics have both mythologized and demystified such legendary figures as Ty Cobb, Babe Ruth, Lou Gehrig, Jackie Robinson, and Fernando Valenzuela. *The Baseball Film* charts the variety of ways that Hollywood presents the game as integral to American life, whether showing little league as a site of parent-child bonding or depicting fans' lifelong love affairs with their home teams. Covering everything from *Bull Durham* (1988) to *The Bad News Bears* (1976), this book offers an essential look at one of the most cinematic of all sports.

New York Magazine, 1993-04-19 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea.
