Using Microcomputers In Social Agencies:

Using Microcomputers in Social Agencies James B. Taylor,1981 *Microcomputer Applications in Human Service Agencies* James B. Taylor,Jacque Gibbons,1980 **Computer Literacy in Human Services Education** Richard Reinoehl,B. Jeanne Mueller,1990 This volume provides a unique and notable contribution to the investigation and exemplification of computer literacy in human services education A significant contribution to the development of the contemporary human services curriculum this helpful guide introduces the computer literate curriculum explores the nature of computer literacy and its ramifications for teaching in the human services and discusses the computer s effect on scholarly thinking Computer Literacy in Human Services Education is divided into two major sections the first dealing with teaching about computers and the second addressing the use of computers in teaching In the first section the authors introduce the topic of computer literacy in human services education and look at some general issues which have broad implications for the educator They also explore program wide curriculum development and the development of individual courses In the second section the authors discuss computers as devices which can facilitate both learning and thinking in human services and suggest that some theories explaining human behavior may also apply to human computer interaction Other topics covered in the section are the use of computers in teaching about human services including Computer Assisted Instruction CAI simulations and interactive video The volume concludes with an examination of the ways computers can affect the thinking of scholars in teaching and in model and theory building in the human services **Microcomputers in Transportation** ,1983
Sharing ,1982 **Microcomputer System Development in Small Nonprofit Organizations** Laura Jean Mulroy,1985
Understanding Your Social Agency Armand Lauffer,1984 **End User Microcomputing** ,1986 *Using Personal Computers in Public Agencies* John R. Ottensmann,1985 A detailed working guide for public agency managers with no computer experience who want to use personal computers to manage information in their agencies Provides coverage of every application in use today detailing the nature and operation of each and offering specific guidance on planning and implementing them Featuring in depth discussions of applications such as electronic spreadsheets database management programs graphic display word processing and a BASIC primer it shows how to plan and implement each application and provides a lesson on important terminology A - Airports British Library,2012-05-21 No detailed description available for A Airports Using Microcomputers in the Social Studies Classroom Robert B. Abelson,1983 The purpose of this book is to help teachers feel at ease with microcomputers so that they will begin to think of computers as tools that they themselves might use There are four chapters The first chapter provides basic information to help a user understand the computer Discussed are how the computer is put together and how it works To help teachers generate ideas about how this new educational aid might be useful in terms of their own teaching objectives the second chapter describes why and how other educators are using the computer Chapter 3 is an introduction to software evaluation i e how computer programs that are

available for use in the classroom can be judged. Criteria are presented. It is suggested that teachers using computer assisted instruction should have a feel for some of the broader issues related to computers in education as well as practical knowledge. The purpose of the fourth chapter which deals with social and educational issues and directions is to provide a perspective about these broader issues and a context into which teachers might place their own activities. Most of the book's readings provide a bibliography of references and further resources. In addition, a list of resources available through the ERIC system is provided. RM

Computers in Human Services John T. Pardeck, John W. Murphy, 1990

Building Coalitions in the Human Services Milan J. Dluhy, Sanford L. Kravitz, 1990-05 This book focuses positively on a particular kind of politics of scarcity: how human service groups can join forces and work together in coalitions in order to manoeuvre government resources more effectively, generate new non-governmental resources and find substitute funds. The book briefly reviews the experiences of thirteen coalitions and describes how to organize, develop and maintain a coalition. Exercises give readers the opportunity to apply the knowledge presented in each chapter.

Agencies Working Together Robert J. Rossi, Kevin J. Gilmartin, Charles W. Dayton, 1982-10 Describes ways in which human service agencies working in related areas can coordinate with one another without undue expense or difficulty. The authors offer ways of improving such common techniques as cross-referral networks. They also describe rare and relatively difficult approaches such as joint programme evaluation. Methods for establishing ties with other agencies and setting common objectives are detailed along with techniques useful in meeting immediate client needs. Case consultation, joint intake and assessment, colocation of agencies and exchange of staff and potential difficulties and benefits of cooperation are also considered.

Designing and Implementing Procedures for Health and Human Services Morris Schaefer, 1985-10 Schaefer presents the basic concepts and management guidelines for social service workers and students for the design and implementation of policy and procedures. Procedures tell people how social service work is to be carried out; they embody specific policies and standards and convert abstractions into concrete instructions. They also offer an important managerial tool since they are the mechanism through which the objectives of the social service are reached.
