Boynton,2011-03 Defrocking the Devil Theology of Fear is a brief history of the last 2 500 years of monotheism using the actual words of the men who claimed to know the devilfigure most intimately From Peter to Constantine to Martin Luther to our present day theologians these men and hundreds more included in this book supported the early Church fathers arguments for the inclusion of Satan into Christian polemics A dualism appeared in the story of Jesus immediately after his crucifixion Instead of tirelessly promoting the Christian message of love thy neighbor as thyself a new spiritual equation of hate torture and murder entered the theological landscape Defrocking the Devil is an attempt to puncture the myths surrounding the words evil devil and hell Two thousand years after the birth of Christianity and fourteen hundred years after the start of Islam hundreds of millions of people currently living on this planet are in real fear of one day ending up down in the devil s lair How did Christian belief in Jesus become conditional upon the existence of fictional beings and wicked subterranean places Defrocking the Devil seeks to illuminate the darkness and empower all people of faith to move beyond theologies that advocate violence into the spiritual equation There have been many books written about this dark side of Western theology but few historians do much more than recount its bloody genocidal history Defrocking the Devil actively seeks to tear down such religious dogmas by using the very words of those who extolled such a hurtful anti Christian philosophy      **Victoria** John Molik,2019-08-20 It s the year AD 2430 Almost four hundred years earlier humanity had barely survived a horrific near extinction level event a solar micronova Survivorship colonies set up by a cabal with advanced technologies eventually evolve into a global Perfect Society called the United Federation of Connectedness UFC Initially based on co ops barter and trade and equal access for all a model that rose out of the ashes of the authoritarian governments of the past humanity bored and striving for more eventually steers the planet to a balanced authoritarian model run by Victoria a genetically engineered Master Server implanted with artificial intelligence When the Animal Rights Act is introduced the backward looking religionists and many others think that Victoria has finally gone too far Artificial love is the glue that keeps the heavily networked society together but a radicalized religious cult the MHs who yearn for a natural connection to their God reject technology and the electronic beasts who govern Protected by the blood of their human messiah they launch a terrorist attack to take down the Perfect Society and replace it with their own A top scientist Claressa who is loyal to Victoria and her boyfriend Pierre Lewalski are summoned to UFC Capital City to thwart the attack Will they be successful Should they be      [The Troubles of a Prospector](#) John T. ONYEBEKE,2010-01-27 The Woodchopper paints a vivid picture of the devastation heaped upon one family by the destructive Biafran War in Nigeria However the strength of the autobiographical work is its portrayal of the lives of common people in the twelve small villages of Achi in southeastern Nigeria prior to and after the Biafran War Their

worship of idols and deities the ferocity of Igbo warriors in hand to hand combat the emergency night meetings of village elders fetish priests and others with spiritual powers when danger threatened and the ever present European missionaries who were bent on saving the pagans from their superstitious patterns of worship are all covered in an accessible literary style The Woodchopper is strongly recommended to anyone who is interested in gaining a better understanding of the Biafran War and perhaps more importantly to those who are interested in learning more about Nigeria the nation that has the largest and most diverse population in sub Saharan Africa
