Elkins, 2001-05-17 He also addresses the phenomenon of art critiques as a microcosm for teaching art as a whole and dissects real life critiques highlighting presuppositions and dynamics that make them confusing and suggesting ways to make them more helpful Elkins's no nonsense approach clears away the assumptions about art instruction that are not borne out by classroom practice For example he notes that despite much talk about instilling visual acuity and teaching technique in practice neither teachers nor students behave as if those were their principal goals He addresses the absurdity of pretending that sexual issues are absent from life drawing classes and questions the practice of holding up great masters and masterpieces as models for students capable of producing only mediocre art He also discusses types of art including art that takes time to complete and art that isn't serious that cannot be learned in studio art classes **Why Art?** Eleanor Davis, 2018-02-14 This is a treatise on what makes art art told in graphic novel form What is Art It's widely accepted that art serves an important function in society But the concept falls under such an absurdly large umbrella and can manifest in so

many different ways Art can be self indulgent goofy serious altruistic evil or expressive or any number of other things But how can it truly make lasting positive change In *Why Art* acclaimed graphic novelist Eleanor Davis *How To Be Happy* unpacks some of these concepts in ways both critical and positive in an attempt to illuminate the highest possible potential an artwork might hope to achieve A work of art unto itself Davis leavens her exploration with a sense of humor and a thirst for challenging preconceptions of art worth of Magritte instantly drawing the reader in as a willing accomplice in her quest
