Lives of Eminent Naturalists, with Engraved Portraits Accompanying Each. (Memoirs and Portraits ... Published in Successive Volumes of "The Naturalist's Library" Lives,1841 **Spirals in Time** Helen Scales,2015-05-07 The beautifully written story of shells and their makers and our relationships with them Seashells are the sculpted homes of a remarkable group of animals the molluscs These are some of the most ancient and successful animals on the planet But watch out Some molluscs can kill you if you eat them Some will kill you if you stand too close That hasn't stopped people using shells in many ways over thousands of years They became the first jewelry and oldest currencies they've been used as potent symbols of sex and death prestige and war not to mention a nutritious and tasty source of food Spirals in Time is an exuberant aquatic romp revealing amazing tales of these undersea marvels Helen Scales leads us on a journey into their realm as she goes in search of everything from snails that fly underwater on tiny wings to octopuses accused of stealing shells and giant mussels with golden beards that were supposedly the source of Jason's golden fleece and learns how shells have been exchanged for human lives tapped for mind bending drugs and inspired advances in medical technology Weaving through these stories are the remarkable animals that build them creatures with fascinating tales to tell a myriad of spiralling shells following just a few simple rules of mathematics and evolution Shells are also bellwethers of our impact on the natural world Some species have been overfished others poisoned by polluted seas perhaps most worryingly of all molluscs are expected to fall victim to ocean acidification a side effect of climate change that may soon cause shells to simply melt away But rather than dwelling on what we risk losing Spirals in Time urges you to ponder how seashells can reconnect us with nature and heal the rift between ourselves and the living world Evolution of the Horse ... figures and plates The meaning of these motivic changes together with early accounts of Karen culture are used to establish that the drums were symbolically a magic pond that the Karen ritually manipulated to assure prosperity Danish Archaeological Investigations in Qatar 1956-1974 Flemming Hojlund,2017-09-15 The first archaeological surveys and excavations in the state of Qatar were carried out by Moesgaard Museum Denmark in 1956 1974 A volume on the Stone Age sites was released by JAS in 1967 and the present publication includes the remaining investigations Of special interest are several graves with iron swords and arrows and camels and a contemporary settlement with pottery showing close relations to Bahrain and the eastern province of Saudi Arabia The first excavations at the early Islamic site of Murwab are presented and the book is concluded with a full catalogue of the rock carvings from Jebel Jusasiyah *Animate Creation* John George Wood,1885 *Garden History* ,2007 *The Jewelers' Circular and Horological Review* ,1899 **Land and fresh-water shells** Joseph William Williams,1889 **The Collection of Spoons Made by Mrs. S.P.
