contributed to changes in our understandings of public and private Justine Lloyd offers a new way of understanding how tremendous changes in social definitions of gender roles played out in media forms worldwide during this period through the notion of intimate geographies Women s participation in media continues to be a key challenge to notions of the public sphere and the book concludes that profound changes initiated in the broadcast era are unfinished in the age of digital media Lloyd therefore provides rich and valuable evidence of the dynamic relationship between media texts producers and audiences that is relevant to contemporary debates about a growing gender apartheid in a mediated culture
