Sustainable Consumer Behaviour and the Environment

Heesup Han, 2021-12-19 This book advances the tourism and hospitality industry s contribution to meeting the United Nations Sustainable Development Goal 12 of responsible consumption and production It enables a collaboration platform across these sectors in pursuit of common goals for promoting sustainable consumption and environmental protection Sustainable consumer behavior is a principal topic in the current tourism and hospitality industry as many types of unsustainable consumptions pose a threat to society and the natural environment Sustainable consumer behavior is a vital facet of protecting the environment that ultimately benefits the entire society Individuals irresponsible consumption activities are undeniably considerable elicitors of harmful environmental social economic and economic impacts throughout the world Comprehending sustainable consumer behavior is of utmost importance for the tourism and hospitality industry to design innovative and responsible strategies to minimize the negative consequences of tourism The scope of this book includes various sustainable consumptions productions and consumer behaviors in a variety of tourism and hospitality sectors and will be of great value to students scholars and researchers interested in areas such as sustainable consumer behaviour hospitality sustainable development and tourism management The chapters in this book were originally published as a special issue of the Journal of Sustainable Tourism

Social Science Perspectives on Climate Change David Canter, 2017-10-02

Although it is generally accepted that the climate is changing for the worse and that human activities are a major contributing factor in that change there is still only marginal response to the challenge posed by climate change The reasons behind this limited response are becoming clearer through the recognition that climate change is not just a set of physical science facts but it is also part of a series of complex social processes Consequently this book is important in providing social science perspectives on a range of attempts to adjust human activity to reduce its environmental impact These attempts vary

from the changing of the dress code in Japanese offices to the creation of zero carbon gated communities in Bangalore India Taken together the contributions to this book provide timely insights into the complexities of saving the planet through human endeavour This book was originally published as a special issue of Contemporary Social Science
