    Software Engineering and Middleware Alberto Coen-Porisini,André van der Hoeck,2007-07-12 The 3rd International Workshop on Software Engineering and Middleware SEM 2002 was held May 20 21 2002 in Orlando Florida as a co located event of the 2002 International Conference on Software Engineering The workshop attracted 30 participants from academic and industrial institutions in many countries Twenty seven papers were submitted of which 15 were accepted to create a broad program covering the topics of architectures specification components and adaptations technologies and services The focus of the workshop was on short presentations with substantial dis cussions afterwards Thus we decided to include in this proceedings also a short summary of every technical session which was written by some of the partici pants at the workshop The workshop invited one keynote speaker Bobby Jadhav of CalKey who presented a talk on the design and use of model driven architecture and middle ware in industry We would like to thank all the people who helped organize and run the workshop In particular we would like to thank the program committee for their careful reviews of the submitted papers Wolfgang Emmerich for being an excellent General Chair and the participants for a lively and interesting workshop

    Software Engineering and Middleware Thomas Gschwind,2005-04-13 This book constitutes the thoroughly refereed proceedings of the 4th International Workshop on Software Engineering and Middleware SEM 2004 held in Linz Austria in September 2004 The 16 revised full papers presented went through two rounds of reviewing and improvement and were selected from 44 submissions The papers are organized in topical sections on middleware services ubiquitous computing performance and QoS and building distributed applications   **Software Engineering and Middleware** ,2002
