## Working with Windows

You can open windows, close each to a small symbol (called an "icon") to save space on the screen, move them around, change their size, and scroll through their contents for information.

### Closing Windows

To save screen space when you're not working in a window (but want it easily available), you can close the window to an icon. To close the File Manager window, for example, click **SELECT** on the boxed arrow in the upper left corner of the window.
