The Audit:

The Audit Explosion Michael Power,1994 **Report on the Audit of Accounts for ...** Kenya. Colonial Audit Department,1929 *The Audit Failures of the Wirecard Scandal* Edgar Löw,Reinhard Heyd,2024-07-15 Wirecard was the largest economic scandal in the history of Germany Following the collapse of Wirecard numerous lawsuits both criminal and civil by equity and debt investors were filed not only against Wirecard but also against the auditor Ernst Young This book demonstrates that a proper audit in accordance with the auditing standards would have uncovered the fraud much earlier and details what went wrong The book first deals with the fundamentals of auditing and examines the Wirecard business models from a legal and economic perspective Then the book deals with the fiduciary structure which there has been often debated When the fraud was uncovered it became clear that 1 9 billion Euros that were supposed to be in escrow accounts were not The book discusses the balance sheet mapping in detail including the related audit requirements and examines in which balance sheet item the amounts allegedly in escrow accounts should have been reported before examining and weighing the corresponding income statement items In each chapter not only are the accounting requirements presented but the requirements for audit measures based on the respective Standards on Auditing are highlighted and explained in detail The book places the requirements for reporting in the context of the Wirecard case and will be of interest to accountants auditors market regulators and credit risk analysts alongside students of accounting auditing **Student's Guide to Auditing Practice** , **The influence of clients on the social identities within the audit profession** Johanna Sylvander,2020-03-02 The overall purpose of the thesis is to explore the meaning of professionalism and independence for the individuals within the audit arena Professionalism is defined as the occupational values that guide auditors professional behaviour and how independence is understood is assumed to be influenced by the social groups the auditors identify with The audit arena consists of several social actors i e the audit profession audit firms and auditors as well as external constituencies of the profession i e accountors and accountees The audit profession both serves the public interest by quality ensuring the information provided by the accountors to the accountees as well as conducts business in a state sanctioned monopoly like market Appearing independent and professional is therefore critical for the profession as independence and professionalism is the basis of society s trust in the profession and may particularly influence the profession s ability to recruit and retain staff The audit profession audit firms offices and audit teams are social groups which influence the values attitudes and behaviours of the auditors through the process of socialization into the profession and the audit firm However accountors i e clients and accountees i e stakeholders such as investors are also social actors who may influence the values attitudes and behaviour of auditors if auditors identify with these social actors Exploring the social identities at play within the audit arena enables us to more fully understand the values that guide professional work The thesis empirically investigates the social identity audit arena through potential current and former audit employees perceptions of the audit

arena where the data is both qualitative interviews and quantitative surveys in nature. The empirical material provides both pre-socialized and post-socialized perspectives on the audit arena where the bulk of the material stems from the pre-socialized perspective. The thesis suggests that there are two types of auditors, namely small client auditors and large client auditors, where the small client auditor group dominates the audit arena. The role of the small client auditor is described differently from the large public client auditor's role. The small client auditor is perceived as a teacher who helps the clients run their businesses better and avoid problems with tax authorities et cetera, making it necessary for the auditor to have a good and close relationship with the client in order to fulfil her/his role. The large client auditor is described more as having the traditional guardians of the market role. Hence, it seems as if the small client auditor is guided by other values and has a different understanding of independence compared to the large client auditor. However, the large client auditor is also perceived as having a counselling teacher role, indicating that some professional values are shared by small client and large client auditors. These different roles auditors are perceived to have, where independence and working for the public interest seem to mean different things, can influence how new audit employees perceive the profession. If employees expect to work as large client auditors but instead experience work being guided by small client auditor values, or vice versa, it may influence the willingness to stay in the profession. These two roles are also a potential factor influencing the expectation gap, i.e. the gap between what society thinks the auditor does and what s/he does in practice. These two roles may therefore influence society's image of the auditor and where the profession may have issues in appearing independent in the relationship with small clients.

Avhandlingens vergripande syfte är att utforska innebörden av professionalism och oberoende för individerna inom revisionsarenan. Professionalism definieras som de yrkesrelaterade värderingarna som styr hur man som professionell revisor bör agera och hur oberoende först s antas påverkas av vilka sociala grupper revisorn identifierar sig med. Revisionsarenan består av flera sociala aktörer, nämligen revisionsprofessionen, revisionsbyråer och revisorer och även externa intressenter till professionen, nämligen redovisningsskyldiga och redovisningsberättigade. Revisionsprofessionen har ett viktigt samhällsuppdrag att kvalitetskräva informationen som de redovisningsskyldiga tillhåller de redovisningsberättigade. Dock bedriver professionen samtidigt affärer på den monopolmarknad professionen har genom den lagstadgade revisionen. För professionen är det därmed av yttersta vikt att framstå som oberoende och professionell, oberoende och professionalism är grunden för samhällets tillit till professionen. Innebörden av professionalism och oberoende inom revisionsarenan kan speciellt påverka professionens möjligheter att rekrytera och behålla personal. Revisionsprofessionen, revisionsbyråerna, arbetskontoren och revisionsteamerna är sociala grupper som påverkar revisorers värderingar, attityder och beteende genom socialiseringen inom professionen och revisionsbyråerna. De redovisningsskyldiga klienter och de redovisningsberättigade intressenter såsom investerare är andra sociala aktörer som kan påverka revisorers värderingar, attityder och beteende om revisorerna identifierar sig med dessa sociala grupper. Genom att utforska vilka sociala identiteter som verkar inom revisionsarenan kan vi förstärka

kunskap kring vilka värderingar som styr det professionella arbetet. Avhandlingen undersöker potentiella nuvarande och framtida revisionsmedarbetares uppfattningar om revisionsarenaden empiriskt av kvalitativ intervjuer och kvantitativ enkäter. Det empiriska materialet ger både ett främjande och eftersocialiserat perspektiv på revisionsarenaden tyngden ligger på det främjande perspektivet. Avhandlingen tyder på att det finns två typer av revisorer nämligen små bolagsrevisorer och storbolagsrevisorer där små bolagsrevisorer är den största gruppen. Små bolagsrevisorns roll beskrivs annorlunda jämfört med hur storbolagsrevisorns roll beskrivs. Små bolagsrevisorn uppfattas som en lärare som hjälper klienterna att driva sina företag bättre och undvika problem med Skatteverket med mera vilket innebär att revisorn måste ha en god och nära relation med klienten för att kunna uppfylla sin roll. Storbolagsrevisorn beskrivs mer som revisorsrollen traditionellt beskrivs dvs som en marknadsverkare och en oberoende granskare. Det verkar alltså som att små bolagsrevisorn utgör ifrån andra professionella värderingar och har en annan förhållning till oberoende jämfört med storbolagsrevisorn. Dock uppfattas storbolagsrevisorn även ha en rådgivande roll vilket indikerar att små bolagsrevisorer och storbolagsrevisorer delar vissa professionella värderingar. Dessa olika roller som revisorer upplevs ha är oberoende och arbete för det allmännas intresse verkar betyda olika saker kan påverka hur nya anställda upplever revision som yrke. Om anställda förväntar sig att arbeta som en storbolagsrevisor men istället för att uppleva yrket som en små bolagsrevisor eller tvärtom så kan det påverka viljan att vara kvar i yrket. Dessa två roller är även en potentiell aspekt som påverkar förväntansgapet dvs skillnaden mellan vad samhället tror att revisorn gör och vad hen faktiskt gör. Dessa två roller kan alltså påverka samhällets bild av revisorn där revisionsprofessionen kan ha svårt att hålla sig vara oberoende gentemot dessa mindre klienter.
