The Critics:

The Critics Say... Matt Windman, 2016-05-04 What will happen to the theater when there are no more critics With the decline of print media and the rise of online journalism theater critics are facing hard times As their influence fades will the industry they cover be adversely affected or can bloggers and message boards fill the void Can a new economic model be created for theater criticism How can critics lucky enough to still have jobs stay relevant in the age of social media Speaking of which what does a theater critic really do and how do you become one In this book Matt Windman a theater critic himself interviews more than 50 critics from New York and around the country including Ben Brantley Charles Isherwood John Lahr Terry Teachout Linda Winer Chris Jones David Cote John Simon and Peter Filichia They discuss their long careers and the nightly process of evaluating plays and musicals and offer their thoughts on the future of the profession

The Critics' Canon Richard Hudson Palmer, 1988-10-19 Palmer clearly states that his purpose is to explain the ways of critics to theatre practitioners the ways of theatre to inexperienced reviewers and the dynamic convergence of theatre and critic to anyone interested in theatre The work is a well written primer for writers and it will be useful primarily to performers who object to unfavorable criticism without understanding the nature and purpose of reviewing Accessible to general readers and undergraduates Choice Palmer begins with an examination of the theatrical review as a medium for informing and entertaining theatregoers documenting events of artistic of community importance and supporting theatre through critical evaluation and publicity He next comments on how journalistic pressures affect reviewers Citing brief examples from hundreds of reviews the author devotes a chapter to each of the elements that needs to be covered in a review including performers script direction music and choreography together with stage and lighting design and other physical aspects of the production The final chapter develops criteria for assessing the strengths and weaknesses of a theatrical review based on aesthetic standards the cultural tastes of theatregoers and the interests of the community Palmer's experience as both a theatre professional and a journalist gives him an intimate understanding of the antagonism that often develops between reviewers and those who feel themselves to be the target of irresponsible criticism His book provides a clear perspective on theatrical matters and guidelines that will help to improve standards of reviewing and create an appreciation of the essential relationship between the theatre and its critics
