The Arts Of Independence:

Arts of Independence Alexander Moffat,2014-04-01 There is only one argument for Scottish independence the cultural argument It was there long before North Sea oil had been discovered and it will be here long after the oil has run out How have perceptions of Scottish culture been shaped by its role within Britain What would be different about culture in an Independent Scotland Why is culture the key to the independence debate ALEXANDER MOFFAT and ALAN RIACH take a hard look at the most neglected aspect of the argument for Scotland s distinctive national identity the arts Their proposition is that music painting architecture and pre eminently literature are the fuel and fire that makes imagination possible Neglect them at your peril For Moffat and Riach jobs health and trade are matters of material fact that need to be enlivened by imagination How can we organise society to help us approach what the arts have to give Why have we been so poor at representing our arts comprehensively both within Scotland and internationally What can be done How might things be different The arts are of paramount importance in the modern world Moffat and Riach take the argument out of the hands of politicians and economists and beyond the petty squabbles of party politics Praise for Arts of Resistance An inspiration a revelation and education as to the extraordinary richness and organic cohesion of twentieth century Scottish culture full of intellectual adventure and openness to the wider world full of passion and intelligence This is a landmark book THE TIMES LITERARY SUPPLEMENT *The Arts* ,1923 [The Arts in Early England: The life of Saxon England in its relation to the arts](#) Gerard Baldwin Brown,1903 The author died while several chapters of v 6 were obviously unfinished but no attempt was made to complete the subject matter The work was to have been concluded with a 7th volume discussing the illuminated manuscripts of the period **The Arts in Early England: The life of Saxon England in its relation to the arts. 2d ed. 1926** Gerard Baldwin Brown,1926 **The Arts** Hamilton Easter Field,1924 **Ethics and the Arts** David E. W. Fenner,2014-04-08 The aim of this series is to make available texts and collections of essays on major moral issues The present volume is a collection that focuses exclusively on diverse moral issues connected with the arts censorship and subsidy authenticity and ownership and the connections between moral and aesthetic values and evaluative judgments The collection is not only unique but timely It appears in a period when the National Endowment for the Arts is under fire and the government s role in the arts is a hotly debated political issue when the connection between moral or political content in art and its aesthetic value remains at the forefront of debate in aesthetics and when ownership and commercialization of artworks continue to exercise the sociology of art **Meaning in the Arts** Louis Arnaud Reid,2014-02-04 This is Volume II of three in a collection on Aesthetics Originally published in 1969 this volume of the Muirhead library of philosophy After distinguishing and relating the functions of Criticism and Aesthetics in Part I Part II develops the basic thesis of the book which is that the central defining characteristic of the aesthetic is embodiment rather than expression Part III tests this out in examples from the different arts representative and abstract with very special attention to music as an abstract art in

which the problem of art's apparently contradictory characters of being both autonomous and yet expressive of life outside art is seen in its most acute form Part IV is a philosophical analysis of the main concepts so far involved meaning symbolism knowledge truth standards in art as distinct from other discursive knowledge It concludes with a discussion of the question whether art is in any sense a revelation Part V considers the bearing of the arguments of the book on aesthetic education
