## **The Az Of African Proverbs:**

**The A-Z of African Proverbs** Jan Knappert,1989 This book contains hundreds of proverbs collected in all parts of Africa many by the author himself The majority of these proverbs are presented here for the first time in an English translation Each proverb is labelled with the name of the country of its origin some proverbs are so widely known that they can be categorised as e.g North African Others are given with the name of the ethnic group or the language where each was recorded In this way it is hoped the greatest possible variety is achieved and the readers will have a fair impression of the richness of African oral traditions

*Proverbs in African Orature* Ambrose Adikamkwu Monye,2008-03 Proverbs in African Orature examines how preliterate Africans handle oral literacy criticism of their proverbs The study demonstrates that Africans employ literary styles and strategies in speaking their proverbs

**The Heartbeat of Indigenous Africa** R. Sambuli Mosha,2002-12-24 Empowered by findings and insights from the wit and wisdom of the indigenous Chaga educational system Dr Mosha contends that an authentic educational program in Tanzania and elsewhere should be holistic in its unrelenting quest to educate the entire person body mind and spirit He provides a comprehensive description of the indigenous schooling process and its underlying fundamental virtues and then proposes that modern education should give equal emphasis to both the spiritual development of students as well as to their intellectual growth in knowledge science and technology Dr Mosha argues that for its own advantage and survival education has to prioritize moral consciousness and responsibility in its students in order to attain academic excellence Without a consistent moral living and moral action by all who teach and learn education eventually plunges into hopeless mediocrity It becomes the proverbial salt which loses its saltiness This book provides several unique contributions to the academy First it illustrates how the Chaga people of N Tanzania cherish everyday experience and every here and now situation as teachable moments teaching moments and learning moments It is also uniquely rich in its description of stories riddles proverbs and rituals as powerful tools of holistic education Thirdly the book breaks ground by comprehensively articulating specific indigenous virtues such as reverence self control silence and thoughtfulness courage diligence in work and communality This book therefore makes a unique contribution in the areas of Indigenous Knowledge Spirituality Education African American Studies African Studies Religious Studies Anthropology et cetera The author's stories personal experiences and thick descriptions are so fundamental that every reader will rediscover in this book similar experiences in his/her own life
