The Control of Germany and Japan Harold Glenn Moulton, Louis Marlio, Brookings Institution, 1949 *The Control of Germany and Japan* Harold Glenn Moulton, Louis Marlio, 1944 **The Control of Germany and Japan ; H. G. Moulton** Louis Marlio, 1944 *Nazi Germany and Imperial Japan* Johanna Menzel Meskill, 2017-07-28 Alliances between sovereign states are among the least stable political associations Despite professions of fidelity and common purpose most are effective for only short periods and only as long as it suits their interests The German Japanese alliance of World War II was not so much a marriage of convenience as a long and uneasy engagement It was maintained because breaking the engagement would have reduced the prestige of each nation state Germany and Japan each found the existence and policies of the other convenient From 1933 1945 both powers challenged the international order other than this nothing else united Germany and Japan Even while they shared some of the same opponents German and Japanese antagonism toward the Allies involved different objects of contention and questions of timing Consequently coordination of German and Japanese policies did not follow Johanna Menzel Meskill argues that the German Japanese alliance failed not only because each power failed separately to attain its goals but because as allies the powers failed to take advantage of their association The failure resulted to a large extent from the discordance between their political goals and the means necessary to attain them This work in diplomatic history is a careful analysis of presuming identities in a world of diplomatic differences In a new introduction to the book Thomas Nowotny looks back on the alliance from a historical perspective He concludes that both parties overestimated the potency and effectiveness of their military power Like many before and some after they more generally subscribed to the offensive use of military power and effectiveness that the history of the twentieth century has proven unwarranted

Environmental Politics in Japan, Germany, and the United States Miranda A. Schreurs, 2003-03-13 A decade of climate change negotiations almost ended in failure because of the different policy approaches of the industrialized states Japan Germany and the United States exemplify the deep divisions that exist among states in their approaches to environmental

protection Germany is following what could be called the green social welfare state approach to environmental protection which is increasingly guided by what is known as the precautionary principle In contrast the US is increasingly leaning away from the use of environmental regulations towards the use of market based mechanisms to control pollution and cost benefit analysis to determine when environmental protection should take precedence over economic activities Internal political divisions mean that Japan sits uneasily between these two approaches Miranda A Schreurs uses a variety of case studies to explore why these different policy approaches emerged and what their implications are examining the differing ideas actors and institutions in each state
