The Cornish Edwardians:

The Cornish Edwardians David Mudd, 1982 *The Edwardian Inventories for the City and County of Exeter* Great Britain. Commissioners on seizure of church goods, 1552-1553, 1916 Classic Victorian and Edwardian Ghost Stories Rex Collings, 2008 The unquiet souls of the dead both as fictional creations and as real apparitions roam the pages of this haunting selection of ghost stories including *Man Size in Marble* adapted for the 2024 A Ghost Story for Christmas The Edwardians Anne Gray, 2004 This catalogue accompanies the exhibition opening at the National Gallery of Australia in March 2004 that aims to reassess the art of the Edwardian period focusing in particular on the art of Australia Among Australia's most loved artists are those who went to Europe at the turn of the 19th century to study and live Many of them stayed abroad for two decades and like Australian film stars of today became absorbed onto the world stage This book places the work of these artists in the context of the British Irish and American artists with whom they exhibited and associated and demonstrates their parallel concerns in painterly approach and subject Opening with paintings by Whistler which were so influential on the artists of this period the exhibition focuses on figurative paintings by select British Irish American and Australian artists from 1900 to 1914 It also includes George Lambert's *King Edward VII 1910* completed shortly before Edward's death and now held in the Commonwealth of Australia Collection In total the exhibition comprises approximately 140 paintings sculptures costumes and fan designs drawn from national and international collections A History of Wales from the Earliest Times to the Edwardian Conquest Sir John Edward Lloyd, 1912 **Classic Victorian & Edwardian Ghost Stories** Rex Collings, 1996 This work comprises a collection of classic and lesser known ghost stories from the Victorian and Edwardian eras It includes ghosts as fictional creations and as real apparitions It includes contributions from all over the world **On the move** Aitor Ibarrola-Armendariz, Jon Ortiz de Urbina Arruabarrena, 2016-07-29 This volume brings together a selection of the papers and round tables delivered at the 39th AEDEAN Conference held at the University of Deusto in November 2015 The essays in *On the Move Glancing Backwards to Build a Future in English Studies* often begin with typically academic gestures such as retrieving a classic text and finding new ways of studying its genre or characterization or remarking how certain ungrammatical constructions have gone frequently unnoticed even in well known texts for various reasons or entangling oneself in contentions about the adequacy of dissecting a literary text or linguistic problem by using innovative analytical tools In all cases though there is the intention of putting forth certain views and notions that will help future scholars to deal in a better light with the dilemmas regularly encountered in literary linguistic and cultural studies The book opens with three essays by professors Bartholomae Pullum and R o who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences The next two sections represent the main body of the e book with nearly forty contributions on both literature and cultural studies Part II and language and linguistics Part III These short academic pieces are a representative showcase of the research being done lately in the

different areas of expertise The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War It is hard to think of any potential reader schooled in English Studies who will not find something suitable to their interests and tastes in this volume

Edward VI Jennifer Loach,2002-01-11 Edward VI was the son of Henry VIII and his second wife Jane Seymour He ruled for only six years 1547 1553 and died at the age of sixteen But these were years of fundamental importance in the history of the English state and in particular of the English church This new biography reveals for the first time that despite his youth Edward had a significant personal impact Jennifer Loach draws a fresh portrait of the boy king as a highly precocious well educated intellectually confident and remarkably decisive youth with clear views on the future of the English church Loach also offers a new understanding of Edward s health arguing that the cause of his death was a severe infection of the lungs rather than tuberculosis the commonly accepted diagnosis The author views Edward not as a sickly child but as a healthy and vigorous boy devoted to hunting and tournaments like any young aristocrat of the day This book tells the story of the monarch and of his time It supplies the dramatic context in which the short reign of Edward VI was played out the momentous religious changes factional fights and popular risings And it offers vivid details on Edward s increasing absorption in politics his consciousness of his role as supreme head of the English church his determination to lay the foundation for a Protestant regime and how his failure in this ambition brought England to the brink of civil war

The Edwardian Army Timothy Bowman,Mark Connelly,2012-05-31 The period 1902 1914 was one of great change for the British army As a result of a series of investigations and government led reorganisation the army embarked on a series of reforms to improve its recruitment standards of professionalism training and preparation for war

Travelling by Train in the Edwardian Age Philip Unwin,2023-10-09 First published in 1979 *Travelling by Train in the Edwardian Age* is a book for the steam train enthusiast but it is much more than that it is as well a fascinating social document reflecting an important aspect of Edwardian times From boyhood memories the author calls to life the sights sounds and smells of the railways in their heyday when an express train was the fastest thing on earth the unforgettable whiff of steam coal dust and oil the colourful liveries of the numerous companies the characteristic voices of the engines and their whistles the decor and the motion of the gaslit carriages with their strict division into classes The author stresses that the cheap comfortable travel was made possible by the arduous and long hours and often dangerous labour of drivers foremen signalmen and other railway staff He pays tribute to their loyalty and expertise in the face of often exceptionally difficult circumstances and crude equipment The author gives due attention to the important developments during the period in locomotive and rolling stock design station architecture and signalling technology The many rare period photographs combine with the author s vivid memories and evident enthusiasm to make this a uniquely informative and entertaining book
