How I Used an Elevator to Climb the Corporate Ladder Leon Fransceco Benjamin, 2015-10-20. Success through work has been advertised for thousands of years. Only a select few have taken the time to analyze and bring the truth about attaining success in a relatively short period of time. Working smart will always defeat working hard. By working smart, one can significantly reduce the amount of time it takes to become financially free, climb the corporate ladder, or any other success endeavor. Mr. Benjamin demonstrates this profound theory first-hand and shows this power as it unfolds. Painting a vivid picture from childhood to adolescence, Mr. Benjamin shows that his personal success and ability to live a debt-free and doubt-free life is something anyone can have.
