The Crystal Ball:

The Crystal Ball Sibyl Ferguson, 1983 The Crystal Ball Gerda Marie Scheidl, **Behind the Crystal Ball** Anthony F. Aveni, 1996 In this fascinating exploration of occult practice Anthony Aveni takes the reader on a whirlwind tour through time and space traveling from the ancient Tigris Euphrates river valley to the streets of our modern day cities On the way he catalogs the many ways people have used magic over the millennia in hopes of improving their lives Consider a page from your ancestors book of spells For a headache pour vinegar on your door hinges For warts wait until the twentieth day after a new moon rub dirt on the warts while you lie in the road and gaze up at the moon Or if you prefer more modern superstitions and want to be a good pitcher be like Texas Ranger Mike Griffin and always eat bacon the day before you take to the mound Professor Aveni argues persuasively that we cannot separate a culture s perception of reality from its times The ancient priests of Egypt saw the dung beetle or scarab as a sign of life not because they were ignorant primitives but because they were using the available clues in the world around them to map out a greater truth When Kabbalists sought to discover meaning through the letters in a name or an historical date they were seeking to satisfy a very deeply held urge The ancients sought the same goals we now obtain from science and religion a clearer picture of humanity s place in the cosmos How and why has Western thought and scientific inquiry diverged from magic At a time when crystals channeling faith healing earth worship and transcendental meditation are enjoying a renaissance the lines between science magic and the occult are beginning to blur once again Comparing Harry Houdini and scientific provocateur Richard Feynman Professor Aveni asks Is magic in the eye of the beholder BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *A Beauty of Magic the Crystal Ball* Ronald Guadamuz, 2021-11-23 In this humorous fantasy YA adventure a young womanizer is taught a lesson and learns to treat women with respect Ian is a teenaged boy who loves girls for the pleasures they bring One summer he meets a strange and mysterious girl named Lucy who asks him to travel to Russia to do her a favor to locate a crystal ball and return it to her as a prize for her love He accepts the task and soon wildly bizarre events start happening He enters a magical realm deep in the Russian forest and encounters fearsome creatures along his way Fortunately he bumps into a young witch named Nina who saves him from the vicious monsters As the two continue the adventure and retrieve the crystal ball Nina falls madly in love with the brave and charming Ian She follows him back to the United States and soon causes magical chaos due to her extreme jealousy of the other girls around him She brews a magical love potion for Ian to drink so she can have him all to herself Unfortunately the love potion doesn t have the desired effect instead it turns Ian into an attractive young woman Panicked angry and confused Ian has only 90 days to reverse the spell before the change becomes permanent Ian Nina and a few other friends must travel to strange new world on another dangerous quest to find a cure that will turn Ian back into a boy But things get far worse when the crystal ball suddenly explodes with negative magic from within leading to a global problem that extends far beyond Ian s condition Young adult

The Crystal Ball: A Mystery Story for Girls Roy Judson Snell,2020-09-28 Florence Huyler read the number on the door She wondered at the lack of light from within the glass of the door was like a slab of ebony No one here she murmured Just my luck For all that she put out a hand to grasp the knob In a city office building ten stories up one does not knock Florence did not so much as allow the yielding door to make a sound She turned

the knob as one imagines a robber might turn the dial of a safe slowly silently Why did she do this Could she have answered this question Probably not Certainly she was not spying on the occupants of that room at least not yet Perhaps that was the way she always opened a door We all have our ways of doing things Some of us seize a door knob give it a quick turn a yank and there we are And some like Florence move with the slyness and softness of a cat It is their nature One thing is sure once the door had yielded to her touch and she had ushered herself into the semi darkness that was beyond she was glad of that sly silence for something quite mysterious was going on beyond that door She found herself in a place of all but complete darkness Only before her where a pair of heavy drapes parted was there a narrow slit of eery blue light There was no need of tiptoeing as she moved toward that long line of light Her sturdy street shoes sank deep in something she knew must be a rich Oriental rug In such a building she thought with increasing surprise The building was old might at any time be wrecked to make parking space for cars The elevator as she came up had swayed and teetered like a canary bird s cage on a coiled spring
