Medical Services Sir William Grant Macpherson, 1923 Supreme Court, Supreme Court Appellate Division Third Dept. Vol. 577, 1910 **In the Supreme Court of the State of New York**, **Deep Cosmopolis** Adam K.

Webb, 2015-05-15 Too often observers of globalization take for granted that the common ground across cultures is a thin layer of consumerism and perhaps human rights. If so, then anything deeper and more traditional would be placebound and probably destined for the dustbin of history. But must this be so? Must we assume as both liberals and traditionalists now tend to do that one cannot be a cosmopolitan and take traditions seriously at the same time? This book offers a radically different argument about how traditions and global citizenship can meet and suggests some important lessons for the contours of globalization in our own time. Adam K. Webb argues that if we look back before modernity we find a very different line of thinking about what it means to take the whole world as one's horizon. Digging into some fascinating currents of thought and practice in the ancient world, the Middle Ages, and the early modern period across all major civilizations, Webb is able to reveal patterns of deep cosmopolitanism with its logic quite unlike that of liberal globalization today. In their more cosmopolitan moments, everyone from clerics to pilgrims to empire builders was inclined to look for deep ethical parallels, points of contact among civilizations and traditions. Once modernity swept aside the old civilizations, however, that promise was largely forgotten. We now have an impoverished view of what it means to embrace a tradition and even what kinds of conversations across traditions are possible. In part two, Webb draws out the lessons of deep cosmopolitanism for our own time. If revived, it has something to say about everything from the rise of new non-Western powers like China and India and what they offer the world to religious tolerance to global civil society to cross-border migration. *Deep Cosmopolis* traces an alternative strand of cosmopolitan thinking that cuts across centuries and civilizations. It advances a new perspective on world history and a distinctive vision of globalization for this century which has the real potential to resonate with us all.
