Creolizing Sartre T Storm Heter,Kris F. Sealey,2023-12-06 Jean Paul Sartre s work has been taken up by writers outside of Europe particularly in the Global South who have developed phenomenological and existential analyses of racism colonialism and other structures of domination Sartre s philosophical concepts are fundamentally open for instance his notions of humanism bad faith and freedom As a situational committed thinker Sartre worked to illuminate the urgent

questions of his time at the concrete and the abstract level The creolization of Sartrean thinking is consistent with the
 existential projects of engagement authenticity political commitment and liberation from oppression This volume asks how
 his European model of phenomenology was and can be transformed when it is taken up by thinkers who have lived
 experience with colonialism They book also engages Sartre in his relation to key interlocutors especially Beauvoir and Fanon
 who were influenced by him and who influenced him in turn The book demonstrates how Sartrean philosophy is productively
 related to Africana philosophy Africana phenomenology and Africana existentialism This volume treats creolization not as a
 discrete topic but as an interdisciplinary global approach to reading and thinking Each author s contribution embodies an
 aspect of creolizing thinking understood as the articulation of cultural and conceptual hybridity under conditions of
 eurocentrism epistemic colonialism and the legacies of slavery Creolizing Sartre re reads Sartrean texts to recast existential
 themes through the lens of Caribbean philosophies and the broader philosophies of the Global South Contributors Lawrence
