Time And The Island:

Island Time Jessica Swanston Baker,2024-10-04 A close look at how wylers a popular musical style from the island of St Kitts and Nevis expresses a unique mode of relation in the postcolonial Caribbean In Island Time ethnomusicologist Jessica Swanston Baker examines wylers a musical form from St Kitts and Nevis that is characterized by speed Baker argues that this speed becomes a useful and highly subjective metric for measuring the relationship between Caribbean aspirations and the promises of economic modernity women s bodily autonomy and the nationalist fantasies that would seek to curb that autonomy and the material realities of Kittitian Nevisian youth living in the disillusionment following postcolonial independence She traces the wider Caribbean musical cultural and media based resonances of wylers posing an alternative model to scholarship on Caribbean music that has tended to privilege the big islands Trinidad Jamaica and Haiti thus neglecting not only the unique cultural worlds of smaller nations but also the unbounded nature of musical exchange in the region The archipelago emerges as a useful model for apprehending the relationality across scales that governs the temporal and spatial logics that undergird Caribbean performance The archipelago and its speeds ultimately emerge as a meaningful medium for postcolonial postmodern world making
